

Report of
'Friday Fun-day'
Organized by IEEE Student Branch, KSSEM
In association with IEEE Bangalore section.

Event name: Friday Fun-day

Date of event: 8th April, 2022

Number of participants: 40

Targeted Audience: All students of all departments.

A non-technical, recreational event called 'Friday Fun-day' was conducted on 8th April 2022 (Friday) on behalf of IEEE KSSEM SB, in association with, IEEE Bangalore Section.

Many students from various streams of Engineering participated in the event. A participation-fee of ₹20/- was charged per person. The response to the event was great, as we noticed that the actual number of participants was almost twice the expected number.

The participants were instructed to form teams of three. The event was conducted in four rounds, namely,

1. '20 questions' — an interesting game from which we can learn to be more inquisitive & always ask the right questions!
2. 'Guess the song' — the main highlight of the whole event, specially curated for the music-buffs.
3. 'Brain Teasers' — a classic game of riddles!
4. 'Where am I?' — only a person with a *photographic-memory* can win this one.

The participants navigated the first 3 rounds as teams. More than 3 teams were eliminated in every subsequent round, and there remained only one *champion* team that reached the final round. In the final round the members of the *champion* team were pitted against each other.

Gauthami from CSE emerged as the winner & *Janhvi* from CSE bagged the runner's position. The winner and runner were awarded with *Certificates of Appreciation*, they also took home exciting goodies worth ₹500/-.

The rest of the participants were also awarded with *Certificates of Participation*.

In conclusion, the event was a grand success.

Attached below are a few pictures from the event.
