LETTER OF RECOMMENDATION

It is with pleasure that I am writing this letter of recommendation for **Mr.Nandan.R** to support his application for his master's studies in your institution. He is a diligent student who has always shown consistent meritorious performance throughout his undergraduate study in Civil Engineering. I am pleased to say that he was consistently ranked within the top ten of his batch, In the class, he was extremely inquisitive about the topics which were discussed. He would interact with me on and off the class about the concepts which intrigued him. His efforts to maintain organized notes of the concepts taught in class and his self-study notes are commendable. He was very attentive and had keen interest on the subject.

In relation to his previous interactions with me, he expressed his interest to take up final year project under my guidance by teaming up with three other students to work on the '**Numerical Validation of Experimental Results for Bearing Capacity of Vertical Skirted Footing on C- Φ Soil**'. It was a challenging project for the team as they had to Validate the Experimental results using the PLAXIS-2D software which involved FEM computations. The team showed perseverance although they had a few early setbacks. **Mr.Nandan.R** took the responsibility of working on the literature review and the research methodology parts of the project. He showed good correlation of concepts learnt to what he had read in the reference papers and did not hesitate to seek my intervention whenever needed. Along with the team, Nandan achieved satisfactory results in their project. During my interaction with him, I believed that he had the capability to take up higher studies.

I have come to know that Nandan is planning to enroll in a Master's degree in civil engineering and I have no doubt that he has the passion, self- motivation and ability required to pursue a master's degree. I am happy to recommend **Mr.Nandan.R** for the graduate program in your esteemed institution.

Sincerely,

Dr. Arekal Vijay

Professor, Department of Civil Engineering

K S School of Engineering and Management

15, Mallasandra, Bangalore 560109, Karnataka, India

LETTER OF RECOMMENDATION

I am pleased to recommend **Mr. Chandan R** for pursuing Masters at your esteemed university. He has been my student for the past four semesters and I have taught him Data Structures, Analysis of Algorithms, and Computer Graphics. He definitely is a fine student, in terms of aptitude, hard work and motivation.

An intelligent, sincere and conscientious student, Mr. Chandan R has maintained a good academic record in my courses. He has been among the few students who completed their assignments before time with optimal results. His performance can be attributed to his clear concepts and strong fundamentals, which have always enabled him to grasp new ideas and topics with relative ease.

Data Structures and Sorting and Searching are important tools which form the foundation of programming languages and he handled these concepts quite well. Mr. Chandan R comes up with innovative ways of applying his concepts as he did while doing a project in third year based on Distributed Computing.

Always an independent thinker seeking to learn more, he has shown great promise by venturing beyond the scope of the subject syllabi. He keeps himself abreast with the latest developments and goes through various technical literatures which were evident from the technical discussions and interviews that i have had with him.

A student who believes in performing to the best of his ability, Mr. Chandan R will work very hard towards the fulfilment of any responsibility that he undertakes. His zest to constantly be on the learning path and his time-management abilities will surely take him a long way. I strongly recommend him for admission to your college for graduate studies.

Should you have any questions regarding this recommendation, kindly write to me at sandhya.a.kulkarni@kssem.edu.in

Sincerely,

Mrs. Sandhya A Kulkarni

LETTER OF RECOMMENDATION

It gives me great pleasure to write this letter of reference for Mr. K ESWAR BABU, one of our department's students. As a Professor, I discovered that he possesses enormous talent and enthusiasm for graduate studies, as well as being a student with high moral and ethical standards. Over the course of four years, I had the opportunity to work closely with him,

I have taught him Computer Graphics'. He is one among the bright students. He has good knowledge of the basic principles underlying the above subjects. His intuitive and methodological work helped him develop a broader perspective as well as mastery over the fundamentals. He has demonstrated good leadership qualities and has been at the forefront of organizing many activities. He was an active member of our college's Entrepreneurship Cell, organizing numerous activities such as Startup Stack, and the manner he handled it and his organizational abilities were exceptional, earning him praise from all our department's staff members.

I firmly believe that all the above qualities coupled with his pleasing conduct, adaptability, and initiative has convinced me to rank him among one of the good students associated with me. Considering his keen interest in pursuing higher studies. I strongly recommend Mr. K ESWAR BABU for his admission into your graduate program with suitable financial aid.

LETTER OF RECOMMENDATION

I have the distinctive delight of making the letter of recommendation for Vishnuvardhan GV, who was an undergraduate student in the Department of Electronics and Communication Engineering at K.S School of Engineering and Management. As a professor in the department of ECE I have taught him subjects like Control systems, Digital Signal Processing and Computer Communication Network and many more.

Vishnuvardhan is a sharp learner whose mission for learning dependably flabbergasts me. He is a curious person who strives to upgrade himself constantly Further, He has an incredible precise capacity and basic intuition bent which was observable during class discussions. He is a dedicated young fellow who works deliberately and gives watchful attention to minor things producing an astoundingly incredible quality work. Moreover, Vishnuvardhan is a dynamic person and gifted with diverse talents.

Expecting that you are searching for much focused hopefuls with a record of character, Vishnuvardhan is an incredible choice. Being his guide for the final year project I have closely supervised Vishnuvardhan's work. He works with total dedication and professionalism. A very mature person, he is group leader and exhibits noteworthy leadership qualities also he gets along well with him group. As a guide I had follow-up with the work and dedication.

It is my confidence that a strong education will help Vishnuvardhan to truly succeed in Masters in Information Technology by diminishing his shortcomings and improving his talents. With his strong moral character, perceiving nature and a clear sense of purpose, I think he would be a valuable addition to your university. This will not only give him a great deal of opportunity, but also will give your university a constructive and a priceless student

Sincerely

Dr.K Senthil Babu

LETTER OF RECOMMENDATION

It gives me great pleasure to recommend my student, **Mr. Harshith Pathapati Gajendra**, to your university for admission into the Master's program. I have known him for 4 years, as an Assistant Professor in the department, where I was his instructor for core Electronics and Communication courses such as Digital Signal Processing and Digital Image Processing. Mr. Gajendra was able to leave a lasting impression in the college through his excellent performances in both academic and extra-curricular activities.

I have always considered him to be consistent in my class in terms of his academic performance and work ethic. He has a strong command over fundamental concepts in programming and signal processing, which has enabled him to gain a good grasp over the subjects. He has excelled in all his practical laboratory classes, showing good potential for research. As a committee member who has evaluated his class projects, I have observed that he conducts in-depth research, backed by strong technical application in all his projects.

Mr. Gajendra is a very ambitious and self-driven learner, who always dives deep into technological aspects and keep his skills updated. He was one of the students who could clear most of the on-campus job interviews and was also offered one of the highest salary packages in his batch.

He possesses aptitude to acquaint himself with knowledge of the latest technological developments and has a flair for learning, which, I believe, makes him an excellent candidate for postgraduate studies. He has an excellent command over the English language and possesses a very positive attitude, which separates him from most of his peers. His ability to assimilate the fundamental concepts and apply them to solve practical problem, demonstrates his ability to approach complex problems in a structured manner.

I'm also aware of the success he has achieved at Mindtree A Larsen & Toubro Group Company, where he has been employed, after completing his undergraduate studies. I believe that his industry experience will prove invaluable during his postgraduate studies. Based on my observations and interactions with Mr. Gajendra, I can assure you that he will be successful in his postgraduate studies at your university. I believe postgraduate studies at your esteemed university will give him the necessary platform to reach his potential, and help a long way in paving the way for an illustrious career in a field of his choosing.

Letter of Recommendation

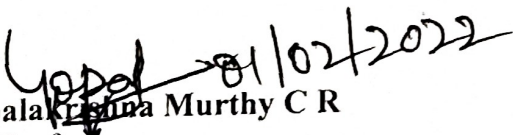

I take immense pleasure in introducing one of my outstanding students **Ms. Lathashree S** whom I know for the past 6 years and during her undergraduate studies I have taught her the courses of Power Electronics, Micro-controllers, Microprocessors and final year Project. This interaction with her provides me sufficient information to gauge and assess the intellectual capability and analytical skills that she has developed during her course.

As a project adviser, I have observed and monitored her at close quarters. She is very immaculate at her work. She has worked on a project on "Design and implementation of a vehicle to vehicle communication system using VANET technology" under my guidance and I find her to be a dedicated and industrious student and I am confident that she will come out in flying colours.

Ms. Lathashree S is quite ambitious and career driven. She works hard to achieve her goals and is committed to her work. She is emotionally matured, confident and good-natured. She is very interactive in the class and endorses the discussions with cogency and natural ease. This combined by her pragmatic approach has always kept her as one of the good students in the Electronics and Communication Engineering Department.

In view of all the above facts, I strongly recommend her, without any hesitation, for admission into your esteemed university with maximum possible financial assistance, and would like to recommend her to qualify as a recommend her for a master's program at your prestigious university which will provide her the opportunity to grow in her career.

Wishing her all the success throughout her life.

LETTER OF RECOMMENDATION

Ref: KSSEM/ECE/LORHEN/016/21-22

15March2022

It gives me a lot of pleasure to recommend Mr. **B V Mahesh Kumar** for Master's program at your esteemed University. I have known him over a period of three years during which I found him to be very discreet and insightful.

I have taught him course on "Microcontrollers", "Microprocessors" and also taken up "Microprocessors Lab". He was regular in attending the classes and eager in learning new concepts. I have found his sincere, hardworking, well mannered, endowed with a good creative potential. He has an impressive ability to grasp the gist of the subject. I have also noticed, during his time in lab, he is capable of designing circuits with little or no supervision and I believe he is a quick learner.

One of the qualities which I liked the most was his excellent communication skill. These were in evidence during the academic seminars. He was confident, mature and could clearly explain some difficult concepts. This shows his positive attitude towards education.

He is a steady performer with well organized study habits. Overall he is an amicable person and mingles with ease in a group. He has potential to carry out his studies in her field of interest. I strongly recommend him candidature for admission at your esteemed university for Master's Program.

LETTER OF RECOMMENDATION

I take immense pleasure in introducing one of my outstanding students **Ms. B. Vaishnavi** whom I know for the past few years. I have taught her the courses of **Power Electronics, Microcontrollers and Microprocessors**. This interaction with her provides me sufficient information to gauge and assess the intellectual capability and analytical skills that she has developed during her course.

Ms. Vaishnavi is quite ambitious and career driven. She works hard to achieve her goals and is committed to her work. She is emotionally matured, confident and good-natured. She is very interactive in the class and endorses the discussions with cogency and natural ease. This combined by her pragmatic approach has always kept her as one of the good students in the Electronics and Communication Engineering Department.

Ms. Vaishnavi has very good communication skills both oral and written. Her perseverance, potential for professional growth and career advancement is of praise worthy. Blessed with eminent analytical abilities and an acute sense of reasoning she can analyze enigmatic problems exceptionally well and come out with good formulations.

In view of all the above facts, I strongly recommend her, without any hesitation, for admission into your esteemed university with maximum possible financial assistance, and would like to recommend her to qualify as a teaching/research assistant in your university.

Wishing her all the success throughout her life.

LETTER OF RECOMMENDATION

I am very much pleased to recommend YASHWANTHI.T as a prospective student for graduate program have known her for 4 years at the time of her under graduation in B.E at this college and I had many opportunities to observe her close quarters was her instructor for the courses electronics and communication engineering. I would like to elucidate few facts about her that impressed me the most.

YASHWANTHI.T is quite ambitious and career driven. She works hard to achieve her goals and is committed to her work. She is emotionally matured, confident and good-natured. She is very interactive in the class and endorses the discussions with cogency and natural ease. This combined lay her pragmatic approach has always kept ahead of her peers. Blessed with eminent analytical abilities and an acute sense of reasoning she can analyze enigmatic problems exceptionally well and come out with good formulations. She is a student with self-reliance and self-confidence.

YASHWANTHI.T's deep understanding of the subject, as well as her quest for knowledge constantly impressed me. She has repeatedly proved her conceptual ability and creative outlook in the classroom debates with her novel problem solving methods. To add to this feature, her latest seminar on the 'Controlling Mouse Cursor Using Eye Movement' is appreciative. She has flair for keeping herself abreast with latest developments in technology. Keeping in view all the above stated facts I would place her among the top of her class students. With her self-confidence and intellectual ability, she will excel graduate studies and I recommend her to be awarded an assistantship to enable her pursue the further studies.

I wish her all the best for the future endeavors.

Signature.

Ref No. KSSEM/ECE/LOK-GEN/014/2021-22
LETTER OF RECOMMENDATION

To whomsoever it may concern,

I am contented to substantiate the candidature of Ms. Alekhya J in applying for the admission to the Master's program at your university. I know her for the past four years as an undergraduate student and also as a person outside her academics.

Even from the beginning of her bachelor's degree, she has been a highly dedicated and enthusiastic student, who actively participated in the open house project expositions conducted by Electronics and Communication Engineering department. She was an active resource person, who engaged in all the workshops conducted by the College, which is focused on enhancing the skills of the students to develop and gain knowledge beyond curriculum. Also, she led the team in various aspects as researcher on the technical concepts .

I have instructed Alekhya J in several courses during the Second year, third year: 'Network Analysis', ARM and Embedded System theory as well laboratory and in final year 'Machine Learning'. She was one of the outstanding students as she demonstrated strong academic abilities and always had been a top 4 scorer in all the semesters.

Alekhya always stood pre-eminently in ideas, concepts and technical knacks. I would like to highlight that, 'confidence' is her armour and her 'public speaking skill' is an ornament to her armour. I have personally witnessed her surpassing many difficulties and being resilient through its course. Her perseverance and dedication have proved that she achieves her goal irrespective of any obstacles and mental pressure, this was proved when she secured the core job at Bosch company as she aimed.

Overall, Alekhya has my highest recommendation for your program and I believe she is a potential candidate who will meet all the requirements of your selection process. Her academic and personal achievements talk about her attitude to achieve her goals and I am sure that she will fit well at your university. I whole heartedly recommend her and wish her the very best in all her future endeavours.

LETTER OF RECOMMENDATION

With my enormous pleasure, I am writing this reference letter in support of Ms.Supritha K who is applying to the Master's in Science program at your esteemed University. I taught her the course of Linear Integrated Circuits. Through my observation, I would like to say that she is attentive and studious and possesses a positive attitude towards academics.

Throughout her course of study, Ms.Supritha K has shown great interest in practical aided learning techniques. We engaged in several courses and research related discussions in which, she confidently talked about her aspirations towards higher education. For her project, she chose the significantly complex topic of Implementation of Digitalized Aadhar Enabling Ration System using IOT. Besides this, she has also gained experience in numerous concepts that are highly valuable for the future generation. As a person who is always ready to take up responsibility, she carries out her duties with immense dedication.

Throughout the year Ms.Supritha K was an active participant in our discussions, and she always supported her peers. I am certain that Ms.Supritha K is going to do great and creative things in future and stand out as an individual at your University.

I sincerely believe Ms. Supritha K will bring her unique energy, optimism, passion, and tireless creativity to your class and University as a whole. Thus, she has my highest endorsement for admission into her desired course at your University. I will be too happy to answer about her candidature, in case if you have any more clarifications, contact me using the below details.

Sincerely,

Shalini J

LETTER OF RECOMMENDATION

With immense pleasure, I, Dr. P.Karthik, Professor at K S School of Engineering and Management, am writing this reference letter in support of **Ms. Sandhya B S** who is applying to the Masters in Computer Science program at your esteemed University. I have known Sandhya in my capacity as her Professor during the last two years of her bachelor's degree during which, I taught her the course of ARM microcontroller and embedded systems, power electronics, machine learning. Through my observation, I would like to say that she is attentive and studious and possesses a positive attitude towards academics.

Throughout her course of study, Sandhya has shown great interest in practical aided learning techniques. We engaged in several courses and research related discussions in which, she confidently talked about her aspirations towards higher education. For her project, she built a **Smart Mirror with cloud computing technology driven by artificial intelligence** using raspberry pi as a microprocessor and Python as the scripting language. This had both face and voice recognition features which according to me was exceptional.

Besides the academic record, Sandhya's participation in **National Level Project Expo** held in MVJ college of Engineering and **Smart Village Hackathon** conducted by New Horizon College of Engineering, clearly displays her interest in the manufacturing, developing and creative sector. As a person who is always ready to take up responsibility, she carries out her duties with complete dedication.

Throughout the year Sandhya was an active participant in our discussions, and she always supported her peers. I am certain that she is going to continue to do great and creative things in future and stand out as an individual at your University. I have the deepest personal and professional respect for her, and sincerely believe she will bring her unique energy, optimism, passion, and tireless creativity to your class and University as a whole. Thus, she has my complete support for admission into her desired course at your University. If you have any questions about this recommendation, please do not hesitate to contact me for I will gladly try to help.

LETTER OF RECOMMENDATION

As an assistant professor in KSSEM, Bengaluru, I am delighted to write this letter of recommendation for Mr. Rangasai, a former undergraduate student at this college. I have known Mr. Rangasai for four years in academia, and hence I can confidently discuss his skills and qualities as I have been his professor for the subject of "Image Processing" during his 7th semester and "Multimedia Communication" during his 8th Semester. I have also been a supervisor in some of his subjects involving practical laboratory sessions. He is a highly motivated and sincere student, who has demonstrated readiness in actively understanding and dissecting the concepts that were taught in class and willingness to apply them in real world use cases to solve some of the assigned problems.

As part of his final year project, Mr. Rangasai worked on a project based on motion tracking involving OpenCV in Python and Raspberry Pi 3 in his 7th Semester. He eventually enhanced and converted this project to a prototype of an Automatic Gun Turret system using an Adafruit Motor Hat in the following Semester. During his undergraduate program, he also prepared and delivered a Technical Seminar on "Optimized Human Detection on the Embedded Computer Vision System", in which he demonstrated the various concepts in Image Pre-Processing, Principal Component Analysis and Image Classification using Back-Propagation Neural Networks during his 8th Semester.

Furthermore, Rangasai was also an active participant in extracurricular activities and has won prizes in quiz competitions in the annual college fest, and has written and performed in stage plays. He has also participated in different disciplines during the annual athletic competitions and has exhibited athleticism in a lot of them.

In summary, Rangasai has demonstrated a lot of interest and a keen sense of innovation in the field of Computer Vision. Being his professor, I take delight in strongly recommending Mr. Rangasai for your esteemed institution and wish him the best for the same.

Yours sincerely,

Prof. Ravikiran Anathasubbaraya

LETTER OF RECOMMENDATION

Working as an Assistant Professor in the Department of Electronics and Communication Engineering. I have known Mr. Rohith Sai Charan Eanugula since 1st semester of his undergraduate program. I have taught him *Basic Electronics, Digital Signal Processing, and Multimedia Communications* during the 1st, 5th, 7th semesters. In my experience, he has been one of the outstanding students with a strong passion for learning. It gives me immense pleasure to recommend him for enrolment to the Masters of Computer Science program at your eminent university.

Mr. Eanugula has maintained an impressive academic record, I would easily consider him to be one of the top 10 students I have taught during my 10-year experience as a faculty in this institution. He thinks out of the box to finish the assignments and was one of very few who submitted them on time. He is always eager to explore beyond the syllabus to satisfy his curiosity. He often tried to implement what he had learned in the class, during the laboratory sessions and took the initiative to pick up new skills in this process.

As evidence of his quest for innovation, I would cite his academic project, where he and three of his friends developed a "Robotic Arm" in their second year, which usually needs four servo motors for efficient operation, but they were able to implement it with just three servo motors. They have demonstrated it along with their senior major projects and it was well-received by the judges and they also got special appreciation.

Mr. Eanugula has been a hardworking student, and has shown strong leadership and team-working skills during his group project works, and has always shown self-motivation and perseverance in his academic endeavours. He never missed workshops that were conducted in the department and exhibited a passion for learning. He also engaged himself in extra-curricular activities, and was part of the teams organizing cultural and technical events on campus, while also participating in events.

Having worked with him, I can honestly say that he has the much-needed capabilities to excel in the field of computer science. I believe that a hardworking and determined student like him would strongly benefit from admission into the master's program at your reputed university. Thus, I give him a wholehearted recommendation, and believe he would greatly benefit from some form of financial assistance, as he would excel in the role of a Teaching or Research Assistant.

I wish Mr. Rohith Sai Charan Eanugula all the best in his future endeavours.

For any further clarifications please feel free to contact me.

Yours sincerely,

Mr. Ravikiran B A

Letter of Recommendation

I am writing to you in support of Mr. Ritik Singh and is desired to pursue his Master's degree in your esteemed university though many students ask me to request on their behalf. I only recommend student whom I feel are well suited for the program of their choice. Mr. Ritik Singh is one of those student, therefore I highly recommend that he will be given the opportunity to attend your university. He has consistently shown such a strong desire to learn that I simply could not turn down his request for recommendation.

I have taught him Machine Tool and operations, Metal Casting and Welding and Non-Traditional Machining subjects. His performance in the class was excellent. He is bright and intelligent student and his insightful approach towards the subject is splendid with diligence and brightness. Apart from theoretical course study, Mr. Ritik Singh has done internship at Trident Automobiles Pvt. Ltd. during the Bachelor Degree.

As a Professor, I would rate him among top 5 of 60 students and strongly convinced that Mr. Ritik Singh is sufficiently prepared for his proposed study and that he will make significant contribution to your programme.

So, I strongly recommend him to pursue his Master Degree at your university. I wish him all the best for his future endeavors.

Your's Sincerely

Dr. Jyothi P N

LETTER OF RECOMMENDATION

I am issuing this letter of recommendation, at the request of Mr Deepak A who is seeking an admission to the Master's program in your University. He has completed his Bachelor's Degree in Mechanical Engineering at K.S. School of Engineering and Management, affiliated to Visvesvaraya Technological University during the period 2016-2019. I have been mentoring and guiding him all the 3years and have taught him the subjects like Operational Research, Financial Management and Manufacturing Processes.

His performance was excellent during his association with me in all the 3 subjects I have taught him. During this period, I had guided him in the subjects and observed his performance closely. He showed the diligence and eagerness to complete all his assignments in due time and was always willing to support his class mates in reaching their set goals. In addition to this, I found his ideas, thinking capabilities and behaviour with his team mates were most creative and attractive.

I can assure that, Mr Deepak A as always one amongst all my most memorable students I have come across. He was one of the most brightest and brilliant students of his class. apart from his studies he also excelled in all the college and inter-college activities. With all this active participation, he took great care to maintain his grades above normal. He demonstrated the capacity of becoming a good team player without appearing presumptuous. Mr Deepak A, is confident, courteous and a good learner with his strong practical and theoretical knowledge. he surely possess all the student qualities for becoming a very good student in your university. I am sure that he will exhibit the same industriousness that he exhibited in our institution and become an asset of your University and I am sure that he is bound to make a difference wherever he goes.

As a mentor and his professor, I do hereby affirm that his conduct and mannerism was found satisfactory and would definitely recommend him to your esteemed University. He has that immense potential to improve on his own capacity, by constantly challenging himself and also bringing remarkable positive changes in himself and his surroundings. I wish him all the very best and a great success in all his future endeavours.
