## **LETTER OF RECOMMENDATION**

It is my pleasure to write on behalf of Ms. Deepika P N whom I have known from the past 4 years. During this period I have taught her the subjects such as Data Communications, Systems Modeling and Simulation and Management and Entrepreneurship and I have also been the faculty advisor for the Google Developer Students Club of which she is a part of the Core Team. During my interactions and after having known and observed her from close quarters, I can say from the experience of teaching her that she is an individual that is curious about things in general, goes above and beyond in order to achieve the set of targets for herself and outperforms herself.

She comes across as an individual who aims to think and solve problems in a different manner. This comes to her naturally and as she is aware of this special ability of hers. Ms. Deepika P N is an individual who possesses an innate ability to solve problems. This characteristic of her was exhibited on numerous occasions when she worked with me in close quarters during the department held social fests and technical activities.

Ms. Deepika P N has special abilities to identify technologies which are in demand in today's world, having a great future scope of work and gaining practical knowledge on the same. This combined with her pragmatic approach towards such avenues and intelligence led her to complete a successful term as the core team member in the Google Developer Students Club as a Data Analysts and become the Data Analyst Lead for the year 2022-2023. During my tenure of being the faculty advisor for the Google Developer Students Club, I noticed a seasoned way of handling the events during her term as the Facilitator for the Android Facilitator, and being the Data Analyst lead for the Google Developer Students Club as mentioned earlier and various other events that she organized. This itself is a testament to her overall ability and highlights her ability to be flexible on the outset and gain cutting edge industry relevant skills which are in demand and in need in today's highly competitive workplaces.

Thus, with deep conviction and the above mentioned reasons, I recommend Ms. Deepika P N for her admission for Masters Programme in your esteemed university.

**LETTER OF RECOMMENDATION**

With great elation, I would like to extend my recommendation for pursuing his further studies in your illustrious university. My interaction with him as the professor of computer science in this college for past 4 years gave me an ample opportunity to watch him from close quarters in many aspects and to estimate his theoretical and practical capabilities. The subject I taught him was database management system.

He was a very active participant in all class discussions and activities, while he contributed insightfully and always took our discussions to another level. He participated in all the seminars related to computer science. His critical thinking ability and collaborative nature made him a favourite among students and professors. In the teaching assistant assignments, I gave him, he always completed them efficiently and effectively. Indeed, he had put in a large amount of extra effort in helping the other students with class notes and revisions.

On a personal level, he is an ambitious student showing a lot of enthusiasm for cultural and extra-curricular activities. He has also shown his adeptness at organizational skills as he conducted several cultural programmes in our college. He also holds the reputation of being a highly effective communicator in English both oral as well as written. Being sound in his communication skills he puts across his thoughts in a lucid and convincing manner. Also, his ability to stimulate interest and clarity of expression makes him a potential teacher. His personal strengths are as impressive as his intellectual accomplishments. He is an active outgoing presence in class with a great sense of humour. He is the perfect Person to get a group project rolling, but he also knows how to sit back and let others take the lead.

I am certain that the international exposure and modern technologies offered by your university will benefit his professional career greatly. With his sincere work ethic and never give up attitude towards life, I am confident in my expectation that he will be a valuable addition to your university. Hence, I strongly recommend his admission to your esteemed university with substantial financial assistance. If there is any question regarding to his reference, please feel free to contact me at any time.

I wish him a fulfilling future.

Sincerely,

Mrs Amitha S

**LETTER OF RECOMMENDATION**

It gives me immense pleasure to recommend Mr. Rakshith B N for graduate studies at your esteemed university. I have seen and groomed him since his third year. Some activities that he did that made him stand out include being the Campus Lead for the Google Developer Student Clubs, Class Representative since his second semester, and was a core member of the Design Team in the organizing committee for the annual cultural fest ARROHANA, and to include some characters like leadership, oratory skills, a keen eye for solving complex social and technical problems that make him stand out and be person who outperforms every activity he embarks on. During my tenure as the Head of Department, I noticed his capability to grasp concepts, lead a community and project and he performed all the activities of a student in a steadfast manner. He comes across as an optimistic student, having a positive outlook towards academics whilst maintaining a high level of technical knowledge. His approach to studies and other activities was more practical and he continuously made an attempt to delve into real world knowledge simultaneous to his studies.

Mr. Rakshith B N takes particular interest towards having a hands-on approach to learning, and leading his community and this sets him apart from other students and makes him a well-seasoned student with exceptional leadership skills. He is also keen on showing interest in participating in classroom interactions and group discussions and on other forums like sports, technical events, organizing technical and social gatherings, being a class Representative since his first year and many other stages where he outperformed and stood out from other students. He was always handy to the department on numerous occasions whether it was a technical fest, even a simple gathering or even providing his hand when the faculty or I needed him. Mr. Rakshith B N exhibited willingness to not just learn, and teach but also impart knowledge of his fellow students. This is a noteworthy quality in him as it entails that he is more than capable of functioning well in a group environment as well as leading a project or a team. Add to this, he is also the mentor and a lead for numerous ongoing projects and is also involved in various other communities in the college.

I take this opportunity to strongly recommend him for his admission in your university.

## LETTER OF RECOMMENDATION

I take immense pleasure in recommending Mr. Rakshith B N for the master's program at your Esteemed University. Mr. Rakshith B N, during his tenure at our college has been a good, talented and an active student throughout. From being a class representative since his first year to being the Campus Lead for the Prestigious Google Developer Students Club. I have found him to be an individual who has an analytical bent of mind, curious in nature and this has in turn helped him gain more knowledge from the theoretical part of academics and practical aspects. Perseverance, Determination, Ambitious, Friendly, Leader and outgoing are some of the words that describe him. He sets a very high standard for himself and it is that given him the zeal to apply for higher education at your university.

Mr. Rakshith B N as observed, is an organized personality and has exhibited leadership qualities well during his time here so far. He has been an integral part of the organizing committee of the Annual Fest that takes place every year named ARROHANA. He is also our proud Campus Lead for the Google Developer Students Club K S School of Engineering and Management. He has also represented the college in Basketball and Football teams during various inter college and university events. He has an ability to think outside the box, performs due diligence required to full fill his responsibilities as a student.

He will be a good fit for your university, will also add value and imbibe the cultural ethos and ethics that are prevalent at your university and hence I strongly recommend him as a potential candidate for the master's programme that he is applying to in your University

## LETTER OF RECOMMENDATION

It gives me the utmost pleasure to recommend Mr **Vinay. L** for the Master's Program: at your esteemed University. He has been my student for three years and I taught him Network Analysis in 3rd semester, Operating System in 5th semester, Microwave and Antenna in 7th semester and NCS in 8th semester. He is a very sincere and diligent student with sufficient motive to excel in his chosen field of studies. During the course of his studies, I came across him as a sincere and hardworking student. This was evident from the effort that he put into his team work assignments. He has been forthcoming with answers to questions raised by me during the lecture sessions and I have found him to be an active participant in classroom discussions. He is a lively, modest, and honest student who is well mannered and respects his professors and peers alike.

On a personal level he is an ambitious person showing a lot of enthusiasm for cultural and extra-curricular activities. He is always an independent thinker seeking to learn more, he has a rare blend of top writing and interpersonal skills. His command over English was well demonstrated through the various technical events he organized in our college. They amply demonstrated his organizational skills too. I have great professional approbation for him and strongly reckon that he will initiate his enthusiasm, buoyancy, passion, and tenacious ingenuity to your university. He has my preponderant patronage for admission into her desired course at your university. I will be able to answer any queries you have regarding his recommendation.

I strongly acclaim him for your esteemed university and his forthcoming deeds.

Sincerely,

## **Letter of Recommendation**

### **TO WHOM IT MAY CONCERN,**

I have had a long and friendly association with Ms. Vandita Narayan, both in my capacity as a tutor and as a mentor. A hardworking student with high levels of commitment to the chosen branch, she had been engaged throughout her undergraduate studies in the augmenting and refining of technical knowledge and practical expertise. A willing learner, she had adopted a multi-pronged approach to learning while maintaining a reverent attitude toward faculty.

I taught her batch Network Analysis, Network Cyber Security, and Hardware Laboratory courses and was also her final year project evaluator. It was heartening to see her approach with astute foresight. She demonstrated the ability to conceive structured workflows and integrate information from large volumes of data. In the laboratory, she contributed to joint endeavors, learning from team members and sharing her expertise. Her research into core topics was not only impressive but also provided direction and clarity. A high degree of organisation and attention to detail made her completed assignments content rich documents that matched the best standards.

A definite penchant for extended learning was evident in the technical papers and projects she presented. She approached me for guidance while preparing for the project. Generic interests and a thorough examination of mainstream technology ran through the entire length of the project. I appreciated her tendency to think differently, closing the knowledge gap through extensive referencing. Encompassing a wide range of applications, authentication systems, and cultural perceptions, Vandita had covered all aspects of the topic and drawn from diverse sources to turn her work into a refined, well-thought-out undertaking.

I had the opportunity to observe Vandita's working style and ethics during the events organised in the department, such as college fest, freshmen's party, farewell party, and cultural events. She enthusiastically participated in 20 plus competitions and won prizes in 10 plus events, including the 1<sup>st</sup> prize in the singing competition at IIM 2020, the Gold Medal for Western Vocals Solo at VTU Fest 2019, and the Silver Medal for Western Vocals Solo at VTU Fest 2018. She represented our college in singing, dancing, debate, and seminars and fetched many laurels for our institute, a stupendous feat by any standard.

Calculated, measured efforts and concerted study methods brought desired results, and she has turned into a proficient, confident professional by the culmination of the course. I have great faith in her abilities and believe that she will reach great heights. I recommend her wholeheartedly for admission at your putative university.

## RECOMMENDATION LETTER

I am glad to get the opportunity to write this letter of recommendation for Shreyas Raghuvanahalli Devendra in support of his application to pursue a Master's Degree at your university. He had been my student for the past two years. I work as a Professor at K S School of Engineering and Management. Besides, I am also his Final Year Project Guide for the project titled "Implementation of Biometrics System in Exam Centre".

Throughout his course of study, Shreyas RD has shown great interest in practical aided learning techniques. I have been especially impressed by his conscious way of studying and his questions during lectures which were thoughtful and penetrating. He has shown professional maturity in completing a project which has proved him to possess the good capability to understand the technical requirement, implement those ideas and work indefatigably on the modules taken. This is truly indicative of his intellectual potential and is evident that he really desires to learn more and challenge himself.

I taught him the courses like Digital Signal Processing and Computer Networks in the fifth and sixth semesters respectively. In my observation, I might wish to say that he is attentive, and studious and possesses a positive attitude toward both theory sessions and laboratory experiments.

Not only in academics Shreyas RD has involved himself in various events organized in the department. He has been coordinating and was of a strong hand of help in organizing different activities in-house and across departments like sports, art competitions, etc. He has also taken the lead role and has successfully completed the tasks assigned in the department.

I recommend him to graduate studies and fitting financial assistance. In my view, his academic know-how, competence, and commitment definitely make him one of the most noteworthy students I have taught. I am convinced he will put forth all his effort into any endeavors. By furnishing him with a graduate program in your college you will not only give him an opening for career headway but also help him reach the supreme level of accomplishment. I strongly recommend Mr. Shreyas RD for a graduate program. For further queries or concerns about his candidature feel free to drop a mail or contact me on the details furnished below.

Yours Sincerely,

**Dr. K. Senthil Babu**

### RECOMMENDATION LETTER

It is my pleasure to write a recommendation letter for Ms. Sahana Santhosh, who is keen to pursue a master's degree at your esteemed university. I have known Ms. Santhosh as a student in the Electronics and Communication program at K S School of Engineering and Management, where I have been an Assistant Professor since 2011. She had been consistent good scorer and among the best students of her batch. As an instructor who has taught Ms. Santhosh in multiple courses, I believe I possess a good perspective to judge her abilities and skills.

In my estimation, Ms. Santhosh is very industrious, ambitious and career oriented. She is a hard worker who strives to achieve her goals and is committed to her work. Her diligent and sincere efforts to get things done complement her practical and logical approach towards problem solving, which, I feel, is a strong distinguishing trait.

I have had many opportunities to observe Ms. Santhosh closely during my courses including Signals and Systems and Digital Image Processing. Her academic performance was excellent, and she has a comprehensive understanding of both theory and practical aspects of the relevant courses. I recall her scoring top grades in my courses, and she has consistently been in the top five percent of her class, in academics. Aside from academics, Ms. Santhosh has also been an active participant and organizer in various technical and cultural extra-curricular activities. She has been a strong team player, playing pivotal roles in organizing multiple technical club activities and mobilizing her team towards successful victory in some events. She was also one of the organizers of the college cultural fest in 2021.

On a personal level, I feel that Ms. Santhosh understands people and has a knack for handling them effectively, with conflict resolution and team organization being her strong suits. She is strongly self-motivated, industrious, and a very good communicator, both in verbal and written forms. I have observed that she is a good team player, excelling in both leadership as well as teammate roles.

I enthusiastically recommend Ms. Sahana Santhosh to the Masters course at your prestigious University, as I believe that she has the talent and the passion to pursue her dreams and attain her goals. I believe that she will be a valuable asset to your academic community. In case you have any further questions, please do not hesitate to contact me.

**To Whomsoever It May Concern**

With absolute confidence, I am writing this recommendation letter endorsing Sahana Santhosh, candidature for the Master's at your coveted university. I have taught her Principles of Communication System and Microwave & Antenna subjects in fourth and seventh semesters respectively.

Knowing her from over three years, I can say with great confidence that she never does anything that would compromise her ethics and reputability. She has also been able to give enough time to her extra and co-curricular activities and even then, she has not let her academics get affected.

Her curiosity and spontaneous approach to understanding the subjects aided her during the exams and viva. I have observed her efficient skills in communication and leadership qualities during the class activities such as case studies in lesson plans which portrays her as an excellent team player. I am certain that Sahana is going to continue to do great and creative things in the future and stand out as an individual at your university.

Furthermore, I have carefully observed her rapport with me and college staff members and appreciate her calm approach under challenging situations. I have similarly observed her to be determined, that's natural given her young age and drive to achieve perfection. I believe that her hunger will lead her to climb up ladders of success.

I have the deepest personal and professional respect for her, and sincerely believe Sahana will bring her unique energy, optimism, passion, and tireless creativity to your class and University as a whole. While the university will help mint this young mind to be a leading pioneer for tomorrow's challenges, she has my highest endorsement for admission into her desired course at your university. If you have any questions about this recommendation, please do not hesitate to contact me for which I will gladly try to help in any manner possible!

Thanking you,

## LETTER OF RECOMMENDATION

I recommend Mr. Shreyas Raghuvanahalli Devendra for Post-graduation at your esteemed university. As the assistant professor, Department of Electronics and Communication Engineering at K S School of Engineering and Management, I handled Power Electronics in the seventh Semester and have known him for the last three years.

During his tenure as a student, he came across as a diligent, hardworking, and sincere student. His assignments, project work, and zeal in the class incite his enthusiasm to learn. His grasping power is phenomenal which is apparent from this work. He is an interactive, lively, and cultured student who follows the disciplines of life and the institution as well. Due to his team spirit and behavior, he is able to earn respect from his peers and professors.

While coaching him on the aforementioned subject, I have recognized that Shreyas RD has an acuity of his goals. He is a fast learner, clarifies doubts, and implements the best out of that information. In addition, he is focused, adroit, and passionate when it comes to academics.

In addition to his coursework. Shreyas RD also dedicated some of his time and actively participated as a volunteer in the inter-college festival. He felt volunteering inculcates leadership guidelines and the skills acquired through volunteering will be beneficial to all his future endeavors. He has the natural ability and multi-task things without compromising on the quality of work.

Overall, I believe that Shreyas has the caliber and I would ensure that you will find him to be a student whose talents will only shine further through your graduate program. Hence, I would recommend Mr. Shreyas RD to your university. I will give in all my support with respect to his application. Please do not hesitate to contact me and I will gladly try to help in any way possible!

**LETTER OF RECOMMENDATION**

With immense pleasure, I am writing this recommendation letter in support of Shreyas RD who is applying for the Masters in Information Systems program at your esteemed University. I have known Shreyas in my capacity as his professor for over three years during which, I taught him the courses "Microprocessors and Microcontrollers", 'Microprocessors Laboratory', in the fourth semester, and 'Multimedia communication' in the seventh semester respectively.

I found him to be highly dedicated, hardworking, and versatile in his learning techniques. He is passionate about the things he's learned, so he'll go out and do further research to learn more about the subject. Shreyas has made several efforts to assume the job of a knowledge worker, which he has accomplished via exceptional learning abilities in a variety of fields.

As Shreyas' instructor, I can assure you that he is the most attentive and curious learner with ways of self-learning capabilities, which as an instructor gave me an insight that he was not just determined in performing the experiments but was also curious in knowing the depths. He actively participated in discussions and showed a keen interest in learning about various intricacies of technological advancements. I was also impressed with his discipline and punctuality.

I feel that he is a deserving student to get admission to your university. It will be the most suitable place for him to polish his existing skills by pursuing a Master's in Information systems. He possesses every quality that is required to achieve his future goals and has the ability to contribute to your institution in various ways. In conclusion, I recommend Mr. Shreyas RD to your deemed university. Please feel free to reach out to me in case of further queries.

Sincerely,

*Kishore*

## LETTER OF RECOMMENDATION

As the Head of the Department of Electronics and Communications, I take great pleasure in recommending my student, B Lokesh Babu, for the graduate program at your esteemed University. Having closely interacted with him, I am confident in providing a comprehensive analysis of his abilities and character. Throughout the course lectures, Lokesh demonstrated a unique approach to learning, often raising insightful questions that sparked stimulating discussions among his peers. His analytical skills, combined with a tenacious attitude, have been instrumental in his academic success. Lokesh's proactive nature and enthusiasm for extracurricular activities have also been noteworthy. From the first semester, he actively participated in various techno-cultural management festivals organized by the college. Notably, he showcased his exceptional planning, data analysis, and management skills as the main coordinator and organizer of our department's fest "Arohana." Additionally, Lokesh contributed his time and efforts to the social club's organizing committee, contributing to the successful execution of the event "Helping Hands."

Lokesh's exceptional teamwork and leadership qualities have been evident in various group projects and activities. He has the ability to collaborate effectively with his peers, motivating them to perform their best and achieve common goals. During group projects, his colleagues often looked up to him for guidance and support. Apart from his technical skills, Lokesh possesses a keen interest in community service. He actively participates in volunteering activities, demonstrating his commitment to making a positive impact on society. His involvement in social initiatives has showcased his empathy and compassion towards others. During his time at our institution, Lokesh actively engaged in research-oriented discussions and workshops. His curiosity and inquisitive nature have led him to explore advanced concepts beyond the standard curriculum, showcasing his dedication to continuous learning.

With a strong passion for research and a desire to delve into emerging areas, Lokesh aspires to pursue graduate studies to broaden his insights. He possesses an energetic and initiative-driven approach to problem-solving, which complements his excellent character and straightforward conduct. His commendable communication skills and friendly disposition have made him well-liked among his peers and faculty.

Without any reservations, I highly recommend Lokesh Babu for your graduate program. I am confident that he will be an asset to your university, and his dedication to academic excellence and passion for research will undoubtedly make him an outstanding researcher. Please do not hesitate to contact me if you require any further information regarding Lokesh's qualifications and capabilities.

**LETTER OF RECOMMENDATION**

As a Professor of Electronics and Communication Engineering at K.S. School of Engineering and Management, I am very glad to recommend Mr. Rohith Sai Charan Eanugula for pursuing a Master of Computer Science at your renowned university. He has completed his technical seminar and final year project under my guidance and has proven to be one of the high potential students of his batch.

Rohith has given his technical seminar on "Wearable Computing" during the VIII semester. I was spellbound with his research work and surprised with his enthusiasm to tackle challenging topics of his seminar like the implementation of a typical wearable computer, different components that can be used to build it, and its applications. He also covered the history, advantages, and disadvantages of a wearable computer extensively. Overall, it was an interactive seminar by him and with his spontaneity, he satisfied the queries of the audience to a great extent.

He and his team took the idea of Automating Horizontal Hydroponics System and brought it to reality by proceeding phase by phase. He played a significant role in planning tasks for each phase and finishing them on time along with his mates this indicates his commitment and teamwork capabilities. He carefully takes down the inputs provided and also adds his ideas to the work assigned. He consolidates the suggestions provided by the other project coordinators while presenting and incorporates them, this shows his accepting nature. Further, he was also involved in developing the physical structure, integrating components, optimizing the code, and documenting the project report.

Rohith is not only a good student but also a good human being with morals and values. He always treats others with immense respect and stands with his peers whenever they are in need and helps them. I felt extremely happy that he decided to take his career to the next step by pursuing a master's in your esteemed university. By considering his diligent nature and capacities in various aspects, I believe that he will excel in academics. I, therefore, highly recommend him for admission to your program.

For any further queries, please feel free to contact me.

Yours sincerely,

**Dr. K Senthil Babu**

## LETTER OF RECOMMENDATION

It gives me great pleasure to offer this reference letter in support of **Mr. Thokula Yashavanth** who is applying to the Master's program at your esteemed University. I have known him in my capacity as his professor in the department of Electronics and Communication Engineering. I have taught him subjects like Control Systems, Digital Signal Processing, Computer Communication Networks and many more. I can infer from my observations that he is attentive, quick to pick things up, and a passionate individual.

Throughout his academic journey, he consistently demonstrated exceptional learning capabilities and an unwavering commitment to academic excellence. As his professor, I had the opportunity to witness his impressive ability to grasp complex concepts swiftly and apply them diligently during lab sessions. His determination and passion in his academic pursuits distinguish him as a remarkable student.

Based on my interactions with him during his undergraduate program, I wholeheartedly believe he possesses the qualities and capabilities to excel in the master's program at your renowned university. His hardworking nature, determination, and eagerness to embrace new challenges make him an ideal candidate for further academic pursuits.

I therefore strongly recommend **Mr. Thokula Yashavanth** for the admission to your program, and I am confident that he will be a valuable asset to your academic community. Please do not hesitate to contact me if you require any further information for which I will gladly try to help.

Sincerely,

**LETTER OF RECOMMENDATION**

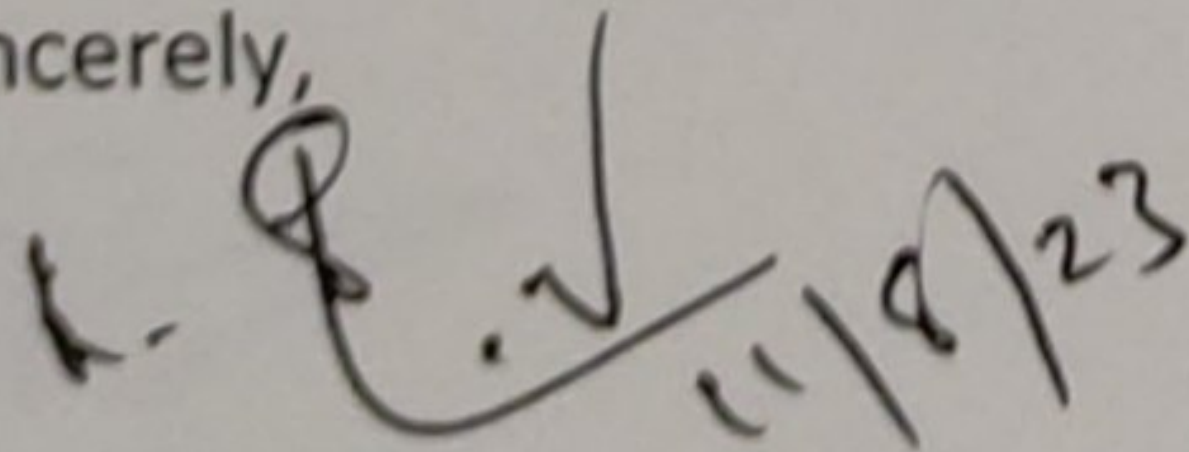

Very few students leave an impression on their teachers, and one such student, who I would like to mention is **Mr. Vinay L.** I have known him from the past 5 years as his teacher and mentor, and have counselled him on various occasions. I have taught him Digital signal processing, including practical work. He has always shown keen interest and would do his practical diligently. He would always bring something new to the table during class discussions. His performance was distinctively better in practical exams.

Vinay's interest in Electronics and Communication is evident from the fact that he always completed his assignments on time and makes sure to ask relevant questions. He is very knowledgeable and always involves in discussion. Furthermore, he was one among a few students to accomplish the lab concepts. His interest in engineering was evident from the mini-projects he would work on during his free time.

His performance can be described through his clear concepts and strong fundamentals, which have always enabled him to grasp new ideas and topics with relative ease. He has good analytical skills and his planning and execution of entrusted duties are of high calibre as was evident from assignments and projects carried out. While in the classroom he was very inquisitive and eager for learning. He is a self-motivated person with leadership qualities, which add up to his virtues.

Based on my observation of his abilities, I believe, **Vinay. L** has the potential to be a good student at your university. I, therefore strongly recommend him for the admission in the Master's program at your esteemed institution.

Sincerely,

## LETTER OF RECOMMENDATION

I am pleased to introduce **Ms. Gorrepati Keerthi**, a student who is interested in pursuing her master's degree at your esteemed university. I have known her as a student for four years now, and I have taught her "**Digital Signal Processing**", and this has given me ample scope to know her academically and personally. She has demonstrated good performance in the courses she studied. Her exceptional command over the subjects is the result of a clear understanding of the fundamentals involved.

I observed her to be a perceptive student who was enthusiastic about the subjects. She is a studious and diligent worker. As a student, she has impressed me with her clarity of thought and good analytical skills. She has shown a great deal of maturity in selecting her future research interests, and her commitment to the same is reflected in her choices and performance within the prerequisite subjects thereof. She is extremely confident and very interested in her chosen field of study, and she is regular in achieving her accomplishments.

Keerthi has a high grasping ability, which helps her understand even intricate details very easily. She would think outside the box and bring fresh air to the topics with a lot of research and hard work. She is a person with a pleasing demeanour and can work well independently as well as in a group with equal ease.

Keerthi continues to impress me with her knowledge, skill, and dedication to her work. I feel that her inclination to learn new things coupled with perseverance would prove to be a major advantage for her during her master's. Taking into account all my observations, I believe Keerthi has the right blend of aptitude, attitude, and willpower to pursue graduate studies, and I deem her worthy of admission into your esteemed university.

I wish her all the success in her pursuits of academic advancement and a successful career.

### LETTER OF RECOMMENDATION

I would like to document my thoughts on **Mr. Anil Kumar Vonti Konda**, whom I have known as a professor while overseeing the course in the Department of Electronics and Communication Engineering. Specifically, I instructed him in **Network Security**. He has been under my tutelage for four years. A focused learner in the class with strong artistic ability. He has demonstrated an amazing capacity to understand the core of the subject.

In my class, **Mr. Anil Kumar Vonti Konda**, constantly shown himself to be a conscientious and imaginative learner. It is quite amazing how well he understood the main ideas of the subject. His strong drive and unwavering commitment to achieving his academic objectives distinguish him as an outstanding student. His success is greatly aided by his ability to apply his knowledge in real-world situations, which is a crucial skill. His genuine approach to his academics and constant search for creative solutions to issues demonstrate his strong sense of self-motivation. His remarkable research-oriented mindset and outstanding analytical abilities are impressive.

Apart from his exceptional scholastic performance, **Mr. Anil Kumar Vonti Konda** is a multifaceted person who participates actively in extracurricular activities. He demonstrates his capacity for leadership and his dedication to self-improvement by taking part in programs that improve his capacity for problem-solving, collaboration, and communication. His participation in technical workshops is evidence of his unwavering quest for knowledge.

**Mr. Anil Kumar Vonti Konda** is an extremely self-reliant and motivated person. He enthusiastically engages in all college-related events, exhibiting a strong will to learn and the resolve to carry out his study objectives. He is ideally equipped for advanced study and research due to his extraordinary understanding of the subject. I firmly think that your university would be the best location for him to pursue a master's degree, and I would strongly recommend him to you.

### LETTER OF RECOMMENDATION

As the Professor and Head of Electronics and Communication Department at K S School of Engineering and Management (KSSEM), I am pleased to recommend **Ms. Suma B L** for the Master's program at your esteemed university. Suma is one of the brightest students of her batch, who set her goals and works with determination and I believe she is worthy of getting the opportunity to study at your university.

I have known her for almost 4 years (2019-2023) and always came across as a well-behaved, courteous and delight undergraduate student. I found her to be highly dedicated, hardworking and versatile in her learning techniques. I have taught her the subjects, Signals and Systems in third semester, Digital Signal Processing and its corresponding laboratory in fifth semester, Computer Networks and its corresponding laboratory in seventh semester. She believes in the application of her knowledge and particularly noticed while taking her lectures, grading the assignments and conducting the practical classes for the course.

As an inquisitive student, she thoroughly engaged herself in class room discussions by asking several questions related to the subject. She puts extra efforts to understand the practical implementation of the theories in real-time. On observing her class participation and overall progress along with the subject knowledge, her overall performance was exceptional during the academics.

Not only in academics, Suma has involved herself in the various activities organized in the department. She has been coordinating and was of a strong hand of help in organizing in different activities in-house and across the departments like debate, art competition etc. she has also taken the lead role and successfully completed the tasks assigned in the department.

Suma is not only a good student but also a good human being with morals and values, she always treats others with respect and stands with her peer whenever they are in need and helps them. By considering her diligent nature and capacities in various aspects, I believe that she will excel in academics.

I therefore highly recommend Suma B L for the admission to your program. I'm confident that she will enhance the glory of your university and reach great heights. Please feel free to contact me if you require any further information.

## LETTER OF RECOMMENDATION

To the Admissions Committee,

I am writing to enthusiastically recommend Ms. Pavithra G P for admission to the Master's program at your esteemed university. I know Pavithra from past 5 years as a student of undergraduate program at K S School of Engineering and Management, where I am serving as the Head of the Department in Electronics and Communication Engineering.

Throughout her academic journey, Pavithra consistently demonstrated exceptional learning capabilities and an unwavering commitment to academic excellence. As her instructor in "Digital Signal Processing" and mentor in the "Digital Signal Processing Laboratory", I had the opportunity to witness her impressive ability to grasp complex concepts swiftly and apply them diligently during lab sessions. Pavithra's genuine enthusiasm for knowledge, self-motivation, and discipline in her academic pursuits distinguish her as a remarkable student.

Pavithra's academic performance has been consistently exemplary, consistently achieving outstanding grades in her coursework. I was particularly impressed by her proactive approach in seeking opportunities to apply her learning beyond the classroom, as well as her eagerness to explore and gain a deeper understanding of the subject matter. Her determination and passion for acquiring knowledge make her a standout candidate for further academic pursuits.

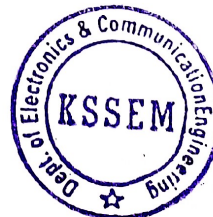

Beyond her academic achievements, Pavithra actively engaged in various extra-curricular activities within our department. Her participation in webinars, seminars, and departmental events showcased her keen interest in staying abreast of the latest developments in her field. Moreover, her strong team spirit and effective collaboration skills were evident when she contributed as a valuable member of the organizing committee for multiple events. Additionally, Pavithra's enthusiasm for undertaking independent projects and attending technical workshops reflects her dedication and thirst for personal growth.

Based on my interactions with Pavithra during her undergraduate program, I wholeheartedly believe she possesses the qualities and capabilities to excel in the Master's program at your renowned university. Her hardworking nature, determination, and eagerness to embrace new challenges make her an ideal candidate for further academic pursuits.

I highly recommend Pavithra G P for admission into the Master's program, and I am confident that she will be a valuable asset to your academic community

Yours Sincerely,

## LETTER OF RECOMMENDATION

I take this responsibility and whole heartedly recommend Mr. Y Dhanush for Master's degree at your esteemed university. As the Professor & Head of Department, Electronics and Communication Engineering in K S School of Engineering and Management, I taught Digital Signal Processing and Computer Networks in his third year.

In my experience, I have seen many students with substantial knowledge of coursework related topics. However, very few take initiative to go beyond the textbook and gain in depth understanding of concepts; Dhanush is one of them. While coaching him on the aforementioned subjects, I have recognized that he has acuity of his goals. He is a fast learner and get his doubts clarify and implements the best out of that information. In addition, he is focused, adroit and passionate when it comes to academics. He is also proactive, hardworking and a smart worker which is evident from academic.

Courage, punctuality and passion are some of the qualities that best describe him. His determination has shown his ability to carry out tasks perfectly. Further, performing well in academics has not restricted his support and participation in departmental activities, as a member of department cultural committee he took initiations of organizing academic and cultural events carried out in the college and within the department.

Overall, I believe that Mr. Y Dhanush's strong hold about electronic subjects will hold him in his stride. I can assure that his skill and competence in the field will undoubtedly prove to be an asset to your university. Hence, I would strongly recommend him at your university for Master's degree. I will give in all my support with respect to his application. Please free to reach out to me in case of further queries.

Sincerely,

  
Dr. K Senthil Babu

I take this responsibility and whole heartedly recommend **Ms. BHANUPRIYA C N** for Master's degree at your esteemed university. As the Professor & Head of Department, Electronics and Communication Engineering in **K S School of Engineering and Management**, I taught her Control Systems, Digital Signal Processing courses in 4<sup>th</sup> and 5<sup>th</sup> semester respectively.

In my experience, I have seen many students with substantial knowledge of coursework related topics. However, very few take initiative to go beyond the textbook and gain in depth understanding of concepts; Bhanupriya is one of them. While coaching her on the subjects, I have recognized that she has acuity of her goals. She is a fast learner and get her doubts clarified and implements the best out of that information. In addition, she is focused, adroit and passionate when it comes to academics. She is also proactive, hardworking and a smart worker which is evident from academic.

Courage, punctuality, and passion are some of the qualities that best describe her. Then, her determination has shown her ability to carry out tasks perfectly. Further, performing well in academics has not restricted her support and participation in departmental activities, as a member of department cultural committee she took initiations of organizing academic and cultural events carried out in the college and within the department. Every year we conduct a college event named as "**AROHANA**", She took the cultural committee in-charge and did a compatible work. Always she is very enthusiastic towards Dance, she performed in the flashmob's and dance competitions in the event conducted by our college, and departments.

Overall, I believe in her strong hold about Electronic subjects will hold her in her stride. I can assure that her skill and competence in the field will undoubtedly prove to be an asset to your university. Hence, I would strongly recommend her at your university for Master's degree. I will give in all my support with respect to her application. Please feel free to reach out to me in case of further queries.

Sincerely,

  
(Dr. K Senthil Babu)

**LETTER OF RECOMMENDATION**

I am Renuka V Tali, Assistant Professor, K S School of Engineering and Management. It is a matter of complete pleasure for me to write this Letter of Recommendation for one of my students, Ms.Sandhya B S, young mind who always showcased an utmost interest in academics and I always found her curious to know everything about the subject she was interested in. I have known her for 3 years as an undergraduate student pursuing Electronics and Communication Engineering at K S School of Engineering and Management. Being her class teacher for consecutive 3 semesters, I got ample time to observe her as a person and as a professional. As per my opinion, she is lively and optimist person and it's my pleasure to write in support of Sandhya who seeks to study for MS in Software Engineering to your esteemed university.

A sincere, intelligent, and responsible student, who has successfully maintained an excellent academic record in the courses taught by me. She has been among the few such students who have completed all assignments and records before their deadlines and with optimal scores. Her performance is driven by her clarity of fundamentals and basic concepts, enabling her to swiftly latch onto new topics and fields with ease.

Apart from her academic record, Sandhya has participated in a multitude of extra-curricular activities. She took part in hackathons and science fests and during her final year she actively participated in college cultural events too. She is a focused girl who has a clear vision in her head about her future, so she deserves the best education from the best university in the world. A student who believes in working hard and maximizing her capabilities, she will be striving to fulfil all her responsibilities. Her dedication towards learning and self-growth along with superior skills of time management will surely take her a long way in the future. In short, she is a person with all round facets of life and an ability to excel at most of them. Therefore, I highly recommend Sandhya for admission into her desired course at your University

If you need to extract more information about Sandhya, please do not hesitate to reach out to me.

Sincerely,

**Renuka V Tali**

## LETTER OF RECOMMENDATION

I, as a Professor in K S School of Engineering and Management, have known Deekshitha Somanahalli Umesh while pursuing Bachelors of Engineering in Electronics and Communications. I had many opportunities to observe her in close proximity and I found her to be an enthusiastic, hardworking and dedicated student.

Deekshitha has been blessed with an acute sense of reasoning and eminent analytical abilities. I have known her to be involved in many technical discussions, team building activities and in many co-curricular activities like workshops and technical seminars in the college.

Deekshitha's dedication towards understanding the topics in all aspects of learning was outstanding. She was involved in many implementation labs which she studied during the course work. I have seen her utilizing her free hours in between the college hours as well as beyond the college hours in the labs to gain more practical skills. She managed to finish her assignments and lab works on time and always amongst the most creative students in the class.

Deekshitha accepts all the challenges that are given to her and actively pushes her mind to the next level of understanding. Her deep understanding of the subject and quest for knowledge has constantly fascinated me. I mentored her in MATLAB and C programming labs. She proactively participated in theory and lab sessions and always prompted to complete the programming assignments in a timely manner. She also demonstrated leadership skills by actively guiding her team members in the labs with very interactive discussions.

In the final year of her graduation, I had the opportunity to view her project presentation "Implementation of Smart health system for monitoring vital signs in chronic heart failure patients" where she enveloped a great deal of research. She has repeatedly proved her conceptual ability and creative outlook in her project. Her project work had a great attention to detail where the quality was never compromised.

I strongly think Deekshitha has the highest capability to succeed as a Masters student at your esteemed university. Her problem solving skill, helping team members, actively driving the group projects and well advance completion of assignments, will all be greatly attributed to the Master's degree. I therefore strongly recommend that she be accepted at your university for a graduate program without any reservation and I would also strongly recommend to consider her for the financial scholarships.

Yours Truly,

**Renuka V Tali**

## Letter of Recommendation

It gives me immense pleasure to write this letter of recommendation for a much deserving applicant, **ARI BHARGAVI**, who is aspiring to pursue a Masters in Data Analytics program in your institution. As her mentor at the K S School of Engineering & Management, I am a witness to her performance as my student from 2012 to 2016.

She maintained a decent academic record throughout. I have taught her the subject like of Power Electronics in Seventh Semester of the course. She believes in the application of her knowledge and particularly noticed this while taking her lectures, grading the assignments and conducting the practical classes for the course. She was highly motivated, eager for knowledge and always was on the lookout to learn something new.

An inquisitive student, she thoroughly engaged herself in classroom discussions by asking several questions related to the subject. She puts extra efforts to understand the practical implementation of theories in real time. She would often study the material for different topics even before the lectures. She is a quick learner, and spends more of her time in workshops and engineering labs to assimilate the concepts of the subject. On observing her class participation and overall progress along with her subject knowledge her overall performance was exceptional during the academics, as she applied her skill-sets rather and was motivated to explore rather than what was thought in the curriculum.

She has been well adverse in his project work Implementation of Data Collection System for Post-Crash Analysis in Cars Using ARM7 and managed the team very well along with the project's progression. She was constantly taking time to discuss and shape the project in the best way possible so that it was unique and innovative. She makes efforts for constant improvement and never settles till she is satisfied with the desired outcome that she longs for. Her ideology of presentation was unique and innovative which motivated not only her team mates but amongst the other team in his batch.

Bhargavi actively participated in various departmental fests and cultural activates besides her academics during her tenure. She willingly accepts challenges and I am confident she is going to leave a mark of her own and going to be a valuable asset for the institution and curve a path to explore her potential and realize her skills. I highly recommend her candidature in your deemed institution. For further queries or concern about this candidate feel free to drop a mail or contact me on the details furnished below.

Sincerely,

  
Mr. Gopalakrishna Murthy C R,  
Associate Professor,

**LETTER OF RECOMMENDATION**

It gives me immense pleasure to endorse **Ms. Nidhi J Somashekar** as a suitable candidate for Master's program at your esteemed University. I have known her for the past 4 years during her tenure as a student at KSSEM. **Ms. Nidhi J Somashekar** has done very well under my tutorship in the subjects of Operating System. As her faculty Advisor and Professor, I got the opportunity to closely examine her academic progress.

I evaluated her academic progress through Assignments, mini projects and semester examinations. Nidhi is an intelligent and sincere student. She demonstrates hard work and perseverance to every task she undertakes. Towards the end of each semester, she had advanced learning on each subject, and was able to explain concepts, features and functionalities, which showed her confidence and dedication over these subjects. My overall observation is that Nidhi is a budding engineer with the eagerness to learn and apply knowledge to practical use.

Throughout her course of study, Nidhi has shown great interest towards practical learning techniques. We engaged her in several course and research related discussions in which, she confidently talked about her aspirations towards higher education. Her habit of relating everything taught in class with the everyday applications has strengthened her base.

She has shown the motivation, intelligence, persevering nature and analytical aptitude for graduate study. She has always submitted her assignments and project reports well before deadlines and she is well focused with keen interest in the practical application of the subjects. Her attendance and presence of mind has been a key part of the study program that has helped her contribute positively while working as a part of the team.

In my view, **Ms. Nidhi J Somashekar** compares favourably with the best among my students. I am sure she will make an outstanding performance at the Master's program. I recommend her in strongest term for participation in any future valuable research and project as well as for admission to any Master's program of her choice.

For any more information please feel free to contact me over phone or email.

## **LETTER OF RECOMMENDATION**

I am writing to express my wholehearted endorsement of **Mr. Anil Kumar Vonti Konda's** application for admission to your esteemed university's Master of Science program. I had the privilege of serving as his professor during his Bachelor of Technology studies at KS School of Engineering and Management. I am confident that he will be a valuable asset to your institution.

From my interactions, I have noted **Mr. Anil Kumar Vonti Konda** is a dedicated and industrious student. He is praised for his unwavering sense of responsibility, enthusiasm for advanced learning, and his meticulous and resolute nature. **Mr. Anil Kumar Vonti Konda's** displays exceptional intelligence, active engagement in class discussions, and a notable influence on academic discourse. His standout characteristic is his highly practical and analytical approach to the subject matter. His enthusiasm and curiosity for research serves as motivating factors for fellow students.

He always puts effort into the department's work, and he makes an effort to emerge as a group leader. His undertakings have further solidified his expertise in pertinent domains. An excellent student in the classroom, who actively participated in class discussions, sought out extra resources for extra problem-solving activities, and frequently attempted to assist classmates who were having trouble grasping ideas.

In conclusion, I enthusiastically urge your prestigious university to admit **Mr. Anil Kumar Vonti Konda's** to the Master of Science program. His amazing work ethic, dedication to project work, persistent focus, and exceptional academic results make him an outstanding prospect for your program. I am quite sure that he will keep doing well and have a big impact on your academic community.

Best regards,

**Mrs. Swati Sarkar**

## LETTER OF RECOMMENDATION

Dear Oregon State University,

I am writing this letter to highly recommend Latha Boranna for her Master's in Nutrition at Oregon State University.

Latha has been an exceptional student in my class Micro Controller & Operating Systems during her course of study.

Throughout the course, Latha demonstrated a profound understanding of the subject matter, consistently producing high-quality work. Her intellectual curiosity and dedication to academic excellence were evident in her projects and assignments.

Not only she excelled academically, but she also exhibited strong communication and teamwork skills. In group projects, she took on a leadership role, effectively collaborating with peers to achieve outstanding results.

She complements academic knowledge with her remarkable inter-personal skills. Her attentiveness, practical approach, positive attitude and curiosity to learn made me respect her as a professional. Not only she was interested in and motivated to learn but also, she put significant effort into grasping and expanding her idea about each topic we discussed. I'm comfortable in putting Latha B amongst the best student I've had the pleasure to teach.

Thank you for considering my strong recommendation for Latha Boranna. I am confident that she will make a valuable addition to Oregon State University.

Yours Sincerely,

**Mrs. Swati Sarkar**  
**Assistant Professor**

LETTER OF RECOMMENDATION

I am very much pleased to recommend YASHWANTHI.T as a prospective student for graduate program have known her for 4 years at the time of her under graduation in B.E at this college and I had many opportunities to observe her close quarters was her instructor for the courses electronics and communication engineering. I would like to elucidate few facts about her that impressed me the most.

YASHWANTHI.T is quite ambitious and career driven. She works hard to achieve her goals and is committed to her work. She is emotionally matured, confident and good-natured. She is very interactive in the class and endorses the discussions with cogency and natural ease. This combined lay her pragmatic approach has always kept ahead of her peers. Blessed with eminent analytical abilities and an acute sense of reasoning she can analyze enigmatic problems exceptionally well and come out with good formulations. She is a student with self-reliance and self-confidence.

YASHWANTHI.T's deep understanding of the subject, as well as her quest for knowledge constantly impressed me. She has repeatedly proved her conceptual ability and creative outlook in the classroom debates with her novel problem solving methods. To add to this feature, her latest seminar on the 'Controlling Mouse Cursor Using Eye Movement' is appreciative. She has flair for keeping herself abreast with latest developments in technology. Keeping in view all the above stated facts I would place her among the top of her class students. With her self-confidence and intellectual ability, she will excel graduate studies and I recommend her to be awarded an assistantship to enable her pursue the further studies.

I wish her all the best for the future endeavors.

  
Signature.

## **Letter of Recommendation**

### **TO WHOM IT MAY CONCERN,**

I have had a long and friendly association with Ms. Vandita Narayan, both in my capacity as a tutor and as a mentor. A hardworking student with high levels of commitment to the chosen branch, she had been engaged throughout her undergraduate studies in the augmenting and refining of technical knowledge and practical expertise. A willing learner, she had adopted a multi-pronged approach to learning while maintaining a reverent attitude toward faculty.

I taught her batch Network Analysis, Network Cyber Security, and Hardware Laboratory courses and was also her final year project evaluator. It was heartening to see her approach with astute foresight. She demonstrated the ability to conceive structured workflows and integrate information from large volumes of data. In the laboratory, she contributed to joint endeavors, learning from team members and sharing her expertise. Her research into core topics was not only impressive but also provided direction and clarity. A high degree of organisation and attention to detail made her completed assignments content rich documents that matched the best standards.

A definite penchant for extended learning was evident in the technical papers and projects she presented. She approached me for guidance while preparing for the project. Generic interests and a thorough examination of mainstream technology ran through the entire length of the project. I appreciated her tendency to think differently, closing the knowledge gap through extensive referencing. Encompassing a wide range of applications, authentication systems, and cultural perceptions, Vandita had covered all aspects of the topic and drawn from diverse sources to turn her work into a refined, well-thought-out undertaking.

I had the opportunity to observe Vandita's working style and ethics during the events organised in the department, such as college fest, freshmen's party, farewell party, and cultural events. She enthusiastically participated in 20 plus competitions and won prizes in 10 plus events, including the 1<sup>st</sup> prize in the singing competition at IIM 2020, the Gold Medal for Western Vocals Solo at VTU Fest 2019, and the Silver Medal for Western Vocals Solo at VTU Fest 2018. She represented our college in singing, dancing, debate, and seminars and fetched many laurels for our institute, a stupendous feat by any standard.

Calculated, measured efforts and concerted study methods brought desired results, and she has turned into a proficient, confident professional by the culmination of the course. I have great faith in her abilities and believe that she will reach great heights. I recommend her wholeheartedly for admission at your putative university.

## LETTER OF RECOMMENDATION

With immense please, I am writing this reference letter in support of **Thokula Yashavanth** who is applying to the master's program at your esteemed University. I have known Yashavanth in my capacity as his professor in the Department of Electronics and Communication Engineering. I have taught him subjects like Network Analysis, Network and Cyber Security, Microwave and Antennas and Operating Systems.

He has always been significantly diligent in handling a great deal of tasks and is certainly capable of sustaining and excelling as a graduate. He truly has inspiring communication skills and an ability to make other people understand. What struck me most is his strong perseverance in doing any pursuit that he takes up. Not only his allurements in technical aspects, he also has considerable number interests in other extracurricular activities as well.

I am certain that Yashavanth is going to continue to do great and creative things in the future and stand out as an individual at your university. I have the deepest personal and professional respect for him, and sincerely believe that he will bring his unique energy, optimism, passion, and tireless creativity to your class and University as a whole.

Thus, he has my highest endorsement for admission into his desired course at your university. If you have any questions about this recommendation, please do not hesitate to contact me for which I will gladly try to help in any manner possible.

Sincerely,

**Dr. Karthik P**

## LETTER OF RECOMMENDATION

With immense pleasure, I, Dr. P.Karthik, Professor at KS School of Engineering and Management, is delighted to write this letter of recommendation for Mr Sushanth Suresh, one of my undergraduate, who is applying to a Masters Program at your esteemed University. I have known Sushanth in my capacity as his Professor during the last two years of his bachelor's degree during which, I taught him the course of ARM microcontroller and embedded systems, power electronics, machine learning. Through my observation, I can confidently say that he is attentive and studious and possesses a positive attitude towards academics. He is a highly motivated and sincere student, who has actively capitalised on every opportunity our college had to offer.

Throughout his course of study, Sushanth has shown great interest in practical aided learning techniques. We engaged in several courses and research related discussions in which, he confidently talked about his aspirations towards higher education in the field of Computer Science . I am the one who knows him the best because I served as his project guide for his senior project. His project management philosophy was to develop an AUV model that moves in an underwater environment to collect real-time data, process the image using LabVIEW software with various object detection and discrimination algorithms, and also stream live video using a webcam which according to me was exceptional. As a person who is always ready to take up responsibility, he carries out his duties with complete dedication.

All through the year Sushanth was an active participant in our discussions, and he always supported his peers. Additionally, he has also successfully represented our college in numerous inter college fests and events. I am certain that he is going to continue to do great and creative things in future and stand out as an individual at your University. I have the deepest personal and professional respect for him, and sincerely believe he will bring his unique energy, optimism, passion, and tireless creativity to your class and University as a whole. Thus, he has my complete support for admission into his desired course at your University. If you have any questions about this recommendation, please do not hesitate to contact me for I will gladly try to help.

Yours sincerely,

Dr. P.Karthik

## Letter Of Recommendation

I, Dr. Karthik P, Professor at the K.S. School of Engineering and Management in the department of Electronics and Communication Engineering am delighted to know that my student Ms. K Suchithra has decided to pursue a Master's degree at your esteemed university. Suchithra is one of the most enthusiastic and obedient students from her class who has completed her under graduation in the year 2020.

Suchithra has done her final year project and technical seminar under my guidance. She opted a topic of "Advances in Digital Image Steganography", for her technical seminar and she impressed me with her research work and I was surprised to see her interest in exploring about new topics. Every time we spoke, I observed her improving knowledge and understanding of the subject; this demonstrated her desire to get skilled and her commitment to her work, which is why she stands unique among her peers.

I was able to observe more about Suchithra while guiding her to the final year project named as, "Implementation of GPS Based Wildlife Tracking System". She was very obedient right from the beginning of the project and always followed the advices and instructions given by me and also other project co-ordinators in different phases of the demo and corrected them too. She held a large portion of the responsibility for developing the model, programming it, running tests on it, and independently preparing the entire project report, which she submitted on schedule.

In addition to her academic work, she has also shown equal interest in extra-curricular activities that are conducted in our department. She organised competitions like debate, art contests and IQ based games in the intra-department and inter-department levels. She also took the leadership in carrying out any departmental tasks with success.

To the best of my knowledge, she is a person with great moral values. She is always one step ahead when it comes to helping others. I'm glad she decided to study further and increase her career options by pursuing a Master's degree at your renowned university. She is a capable and diligent student, so I believe she is a deserving candidate to be joining your university. Kindly do not hesitate to get in touch with me if you need any additional information.

Sincerely yours

**Dr. Karthik P**

**Letter of Recommendation**

I am glad to attest to the personal and academic accomplishments of Mr. Kampalli Sohith. I have known him for four years as a student at the KS School of Engineering and Management, where he studies electronics and communication engineering. I handled the "operating system" and "microwave and antennas" subject in his undergraduate studies.

He has consistently performed well and has always been one of the most attentive and inquisitive students in my class. He is an extrovert and can express himself very well both in formal teaching contexts and in informal discussions. In these years of acquaintance, I have found his ideas to be innovative and inventive. He has a natural leaning towards academics, and he keeps himself updated with all the latest developments in technology. He has also exhibited his in-depth knowledge of the subjects. He initiates discussions and likes to connect through an understanding of concepts. In addition to his impressive academic performance, a special reference has to be made to his excellent communication skills as well.

He is also a good team player, a quality that came forth during the projects that were required to be completed as a group activity. He shares an excellent rapport with his peer group, seniors, and teachers. I am quite sure that he will achieve success in any academic pursuit he undertakes.

His high scores in practical exams and his inquisitiveness indicate his attitude towards research work. He can execute research work in his field with judicious planning. His perseverance during laboratory work is noteworthy, and I strongly believe that he is very capable of succeeding in the well-recognized research program at your university. I strongly recommend Sohith for the master's Program at your prestigious university.

### **LETTER OF RECOMMENDATION**

It is my pleasure to enthusiastically recommend **Nidhi J Somashekar** for admission to the Master's degree program at your esteemed Institution. I have known her as a student in the Department of Electronics and Communication Engineering for the past 4 years. As her lecturer and a mentor, I have seen her demonstrate exceptional technical and analytical skills in her coursework, and she has a genuine passion for the field of engineering.

During the tenure of the course, when I handled the course on 'Network Analysis' and 'Network and Cyber Security' in her third and eight semester. She demonstrates good grasping power and the ability to apply the fundamentals for solving complex problems. I noticed that she is a disciplined smart working student who is highly motivated and eager to learn. Her desire to experiment using mediums such as mini projects showcased not only her dynamic learning abilities but also her management skills. She can lead and organize to deliver group activities and team projects.

I am glad to point out that Nidhi has been a successful student and a good academic performer throughout her engineering. I appreciate her critical thinking, research skills and her articulative management skills, showing a preference in application-based learning. She is good at social networking and professionalism in the class-room setting. These will serve her well in being an immediate productive asset for your institution.

Considering her interests, career goals and performance in my class and how she would perform as a graduate student, I am convinced that Nidhi will prove herself to be a dynamic contributor to your program and thereby highly recommend Nidhi to join your university for the Graduate program.

LETTER OF RECOMMENDATION

I feel proud to write this letter of recommendation for Ms. Basineni Kaveri who has applied for Master's degree at your university. Basineni Kaveri has been my student for 3 years and during her graduate studies I have taught her subjects such as Computer Network. I am her professor and project mentor.

In my experience, I have seen many students with substantial knowledge of coursework related topics. However, very few take initiative to go beyond the textbook and gain in depth understanding of concepts. Basineni Kaveri is one of them. Having closely observed her during my classes I found that she is very interactive with a good problem-solving ability and creative thinking.

While coaching her, I have recognized that she has acuity of her goals. She is a fast learner and get her doubts clarify and implements the best out of that information. She is a hard-working student and good with her studies which she demonstrated by her academic performance. During her entire academic period she was disciplined, dedicated and committed.

On account of all the above mentioned things about Ms. Basineni Kaveri, I strongly recommend her for Masters Course at your esteemed University. I am confident that your esteemed university will be an ideal place for her to improve upon her existing skills through pursuing a Masters program. Please feel free to contact me for any further enquiry through below information.

## Letter of Recommendation

Mr. Thota Mohanbabu is one of my students, to whom I taught operating systems. I also closely interacted with him during the lab sessions. Based on my observations, he is well-versed and driven to succeed in all of his endeavours.

I found him to be an ambitious and sincere student, who is diligent in preparation and meticulous in the completion of his work. He is a good team worker, is ahead of other students in the class, and can go beyond what is required. He is always willing to take on new responsibilities, has been at the forefront of organizing various departmental activities, and has exhibited good leadership qualities. With his excellent communication skills and his unique qualities, he can be part of any research team.

I have seen a keen urge in him to understand concepts beyond the theoretical purview, reflecting his potential research. As a student, he has never been contenting with mere class work but has also been involved in departmental activities.

Essentially an outstanding student, I see Mohanbabu as a highly motivated and capable student who should pursue higher studies in his area of interest. By furnishing his graduate program at your university, you will not only give him an opening for a wonderful career that benefits some of his abilities but also help him reach a higher level of accomplishment. I strongly recommend him for master's studies with suitable financial assistance.

I convey my best wishes to Mr. Thota Mohanbabu in his endeavours to acquire knowledge through higher education.

I feel proud to write this letter of recommendation for **Ms. BHANUPRIYA C N** who has applied for a Master's degree at your university. I am her professor and project mentor. She is a hard-working student and good with her studies, which she demonstrated by her academic performance. I taught a course Computer Networks for her in 8<sup>th</sup> semester. Having closely observed her during my classes I found that she is very interactive with a good problem-solving ability and creative thinking. During her entire academic period she was disciplined, dedicated and committed.

Speaking about her project, she is a team leader and worked in harmony with her fellow team members. She clarifies her doubts whenever necessary and tries to incorporate new ideas in the implementation of the project. Her presentation and communication skills are excellent. Bhanupriya C N's contribution in generating ideas for making progress and her deductive reasoning skills has become a very valuable and reliable asset in the project.

Project was named as "**Password Authentication using Brain Signals**", the project was very challenging and the project got selected and presented in **IEEE National Conference** in which Bhanupriya presented the project behalf of the team and did commendable work. Apart from this she contributed her skills and technical knowledge in **IEEE KSSEM**, where it is a International knowledge club, she secured a Board member position in different roles for 3<sup>rd</sup> and 4<sup>th</sup> year, She contributed in conducting various workshops for the students, and various types of technical competitions. She has an inspirational personality.

I'm extremely more than happy to realize that she has chosen to seek after an Expert's. I sincerely accept that she will be an excellent Master's at your college and I'm glad to suggest her for your college confirmation. For further enquiry, go ahead and reach me through the contact data provided.

Sincerely,

  
(Dr. Karthik P)

## LETTER OF RECOMMENDATION

It is my pleasure to recommend **Mr. Anil Kumar Vonti Konda**. As a professor in the KS School of Engineering and Management's Department of Electronics and Communication Engineering, working with **Mr. Anil Kumar Vonti Konda** has given me the chance to witness directly his exceptional academic aptitude and commitment.

I was fortunate enough to have the opportunity to get to know **Mr. Anil Kumar Vonti Konda** during his four years of Undergraduate. Our initial interaction occurred during the **Operating Systems** course that I taught, involving three to four lectures per week. Right from the start, it became apparent that he possessed a genuine interest in delving deep into the subject matter. He consistently demonstrated attentiveness in class and approached assignments with a proactive mindset, underscoring his dedication to serious study.

Throughout his academic journey, **Mr. Anil Kumar Vonti Konda** has showcased a keen interest in learning methodologies, particularly through practical applications. He conducts himself in an amiable manner and establishes positive relationships with both peers and instructors. Apart from his ability to work autonomously, he is also a collaborative and enthusiastic team member.

He is a really good student who consistently raises insightful questions about the subject matter beyond the confines of the class. His goal is not merely to complete assignments but to thoroughly understand the subject and apply it to his daily life. He consistently produces intelligent and timely work, actively engages in class discussions, and demonstrates a serious and dedicated approach. His meticulous attention to detail during assignments and careful preparation underscores his commitment to academic excellence.

I understand that you are looking for students with a strong academic background who are driven and industrious. I heartily propose **Mr. Anil Kumar Vonti Konda** for admission to your prestigious university's graduate program. In view of his exceptional talents and dedication, he would make a fantastic addition to your organization.

Best regards,

## Letter of Recommendation

I feel gratified in recommending Mr. Kovi Sharath Chandra for admission to your reputed university. I have taught him operating systems. His eagerness to learn and dedication to academics are palpable. The knack he has for pursuing the knowledge of newer technologies and working on them is fascinating. He also has motivation for graduate studies.

Throughout his course of study, Kovi Sharath Chandra has shown great interest in practical aids to learning techniques. He has pleasing behaviour and shares a good rapport with his instructors as well as with students. He has the capability of working as an individual and is also a cooperative and sportive member of the team.

He is an excellent student, often bringing insightful questions about the material after class. More than getting work finished, he strives to understand and apply the material in his daily life. He is always prompt and insightful with his work and is a frequent contributor in the class. I found him to be an ambitious and sincere student who is diligent in preparation and meticulous in the completion of his work.

I'm convinced that Kovi Sharath Chandra will prove himself to be a valuable contributor as a student. I can finally say that Kovi Sharath is one of the best students. Given his abilities and commitment, I believe that Kovi Sharath Chandra has the potential to undertake higher studies. I hereby recommend him to your prestigious university to pursue a master's degree.

### LETTER OF RECOMMENDATION

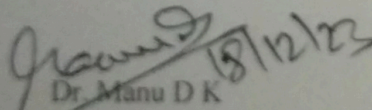

I take this responsibility and whole heartedly recommend Ms. Gorrepati Keerthi USN: 1KG18EC016 for Master's degree at your esteemed university. Working as Associate Professor of Electronics and Communication Engineering in K S School of Engineering and Management, I taught her "Information Theory and Coding" and also, I was her "Internship Guide" in her third year.

In my experience, I have seen many students with substantial knowledge of coursework related topics. However, very few take initiative to go beyond the textbook and gain in depth understanding of concepts; Keerthi is one of them. While coaching her on the aforementioned subjects, I have recognized that she has acuity of her goals. She is a fast learner and get her doubts clarify and implements the best out of that information. In addition, she is focused, adroit and passionate when it comes to academics. She is also proactive, hardworking and a smart worker which is evident from academic.

Courage, punctuality and passion are some of the qualities that best describe her. Her determination has shown her ability to carry out tasks perfectly. Further, performing well in academics has not restricted her support and participation in departmental activities, as a member of department cultural committee she took initiations of organizing academic and cultural events carried out in the college and within the department.

Overall, I believe that Ms. Gorrepati Keerthi strong hold about electronic subjects will hold her in her stride. I can assure that her skill and competence in the field will undoubtedly prove to be an asset to your university. Hence, I would strongly recommend her at your university for Master's degree. I will give in all my support with respect to her application. Please free to reach out to me in case of further queries.

### LETTER OF RECOMMENDATION

I am writing this letter to give my highest possible recommendation to **Vishnuvardhan GV** for admission into your University. Having known him for 2017-2021 especially during the period of his project work, I have had numerous opportunities to interact with him and thoroughly vouch for his character and abilities. I have taught him Information Theory and Coding and supervised his lab for Analog Electronics and Advanced Communication. I would like to offer an evaluation of his potential for your consideration.

He is very systematic in his work and an enthusiastic learner. Coming to extracurricular activities, he has involved himself in numerous organizations and events both in the campus and outside. His exuberance always displayed uniqueness and played a crucial role in team activities. He always strived to be the leader and set an example to his peers. His persevering nature, well-balanced personality and eagerness to excel makes him an apt candidate for research and advanced studies. He was a student who would grasp the concepts well and aced his exams with reasonably good marks.

In a nutshell, Vishnuvardhan is a multifaceted person with a zeal for academic, cultural and extra-curricular activities. I am confident that your esteemed university will be an ideal place for him to improve upon his existing skills through pursuing a Bachelors Program. I strongly recommend him for admission to the graduate program with financial assistance.

**LETTER OF RECOMMENDATION**

I take great pleasure in recommending Mr. Para Lokesh in his pursuit of higher educational qualification for Master's degree from your esteemed university. I observed for past 4 years as an Associate professor in the Electronics and Communication department. From my supervision, I have noticed that lokesh is a curious, ambitious and an organized student.

I have taught him courses like 'Control Systems', and 'Information Theory & Coding.' His performance in these courses is commendable. In all the work he does is his most important quantity, which motivates him into giving his everything in any task he undertakes. A student with excellent ability for logical and intuitive thinking, he has proved himself to be a talent and brilliant student. His ability to understand a problem and to conceptualize & analyse a situation needs a special mention.

Lokesh communication skills are outstanding, he complements his academic knowledge with his remarkable inter-personal skills. His attentiveness, practical approach, positive attitude and curiosity to learn made me respect him as a professional. Not only was he interested in and motivated to learn but also, he put significant effort into grasping and expanding his idea about each topic we discussed. I'm comfortable in putting Lokesh amongst the best student I've had the pleasure to teach.

Mr. Para Lokesh continues to impress me with his knowledge skill and dedication to his work. I am sure you will find to be a scholar whose talent will only shine further through your graduate program. I recommend him for the admission at your esteemed college with full financial assistance. Please feel free to contact me if you require further information.

Yours Sincerely,

*Manu D. K.*

**LETTER OF RECOMMENDATION**

I am extremely delighted to recommend my student Miss. Mrunalini Girish Antin who aspires to do her Master's Program at your prestigious University. I am glad that she has decided to exploit her potential to the fullest by pursuing her Master's from an institute of international repute. I have known her throughout the course of engineering, and from the interactions, we have had, I can say that she is a diligent, hardworking, and focused student.

As an Associate Professor at the Department of Electronics and Communication Engineering, KSSEM, Visvesvaraya Technological University. She was under my tutelage for the subjects of Digital Electronic Circuits, Digital Electronics Lab, Linear Integrated Circuits, and guided in her Project for "Design of IoT Based Landmine Detection Robot". Mrunalini has shown a standout performance in various aspects of her project such as designing, construction of their model using unique materials and advanced methodologies which should hold her in good stead.

She was a top presenter among her batchmates and has impressed a team of well-versed professors with her crisp communication and presenting skills already. Mrunalini was always involved in discussions and deliver all the given assignments in a timely manner. She always helped her friends participate in group discussions, in labs and in placement interviews. Mrunalini was a hardworking and an ambitious girl who apart from academics has also worked as an intern at top companies of India during her study years which bought her immense exposure of work & also bought a good name to our institution. Her competence, interests, and commitments to work restlessly indicates that she can perform outstanding even in highly competitive environment. Mrunalini's exploit outside the academic's realm have also been noteworthy. She has participated in technical projects and seminars held by college.

Apart from this, she has been one of those students who is always regular in submitting her assignments. Her confidence, talent, maturity, interest, and passion for keeping abreast are one of a kind, making her a promising student. Her powers of observation, inherent curiosity, and willingness to learn have made to reflect her intelligence and thinking abilities which have made Mrunalini very popular with her class fellows and her peers. Overall, Mrunalini is a highly motivated student having exceptional creative abilities, research-minded, a student of high ethical and moral standards, and equally good in cultural and extra-curricular activities. I feel proud to have been associated with Mrunalini. I would like to strongly recommend her to your esteemed university for pursuing her higher studies and given a chance, I have no doubt that she will make a great student at your university. If you have any questions regarding Mrunalini, please contact me.

Regards,

**LETTER OF RECOMMENDATION**

I, Manu D K, Associate Professor at K.S. School of Engineering and Management in the department of Electronics and Communication Engineering, am thrilled to learn that my former student, Ms. Pavithra G P, has chosen to pursue a Master's degree at your esteemed university. Having known Pavithra since her undergraduate years, I can confidently say that she is one of the most enthusiastic and dedicated students in her class, graduating in 2021.

Under my guidance, Pavithra completed her final year project and technical seminar, where she chose the topic of "Artificial Intelligence of Things Wearable System for Cardiac Disease Detection". I was deeply impressed by her research work and her passion for exploring new subjects. Each time we interacted, I noticed her continuously improving knowledge and understanding of the subject matter. Her unwavering commitment to learning and growth sets her apart from her peers.

During her final year project, "Design and Development of Solar Panel Tracking System". Pavithra displayed exemplary leadership skills as she took charge of her team and proposed an exceptional idea for their project. She diligently followed the advice and instructions provided by me and other project coordinators, continuously refining their work. She assumed significant responsibilities, from developing the model and programming it to conducting tests, and independently preparing the entire project report, submitted on time.

Beyond her academic pursuits, Pavithra actively participated in various extra-curricular activities within our department. She organized and managed competitions like debates, art contests, and IQ-based games at both intra-department and inter-department levels. Moreover, she demonstrated great moral values and a helpful nature, always being one step ahead when it came to assisting others. I am delighted that she has chosen to further her education and expand her career options by pursuing a Master's degree at your prestigious university. I wholeheartedly believe that she is a deserving candidate and I am available to provide any additional information if needed.

Sincerely yours,

*Manu D K*

## LETTER OF RECOMMENDATION

With immense pleasure, I am writing this reference letter in support of Santosh R who is applying to the Master's program at your esteemed University. I have known Santosh R in my capacity as his Professor in the Department of Electronics and Communication Engineering. Not only as professor and also his project guide during his final year. Through my observation, I would like to say that he is attentive, intellectual, and a passionate individual. During his course of study, Santosh R has shown great interest in practical aided learning techniques. Santosh R would involve himself with research-related discussions in which, he confidently talked about his aspirations towards higher education. Besides this, he has also gained experience in numerous concepts. Besides his academics, the candidate has consistently been involved in various social activities.

Santosh R was involved in the project named "Solar Outdoor Air Purifier with Air Quality Monitor" which included the sophisticated methodologies, construction, operation working, and presenting. I would like to highlight his communication skill and also tell that he has impressed a team of well-versed professors during his delivery.

Throughout the course of time, Santosh R was an active participant in our discussions, and he always supported his peers also he was a well-known event organizer at our institution. I am certain that Jayanth is going to continue to do great and creative things in the future and stand out as an individual at your university.

I have the deepest personal and professional respect for him, and sincerely believe Santosh R will bring his unique energy, optimism, passion, and tireless creativity to your class and University as a whole. Thus, he has my highest endorsement for admission into his desired course at your university. If you have any questions about this recommendation, please do not hesitate to contact me for which I will gladly try to help in any manner possible.

Yours Sincerely,

*Manu D K*

## LETTER OF RECOMMENDATION

It is true pleasure for me to write this letter of recommendation for Y.Dhanush in support of his application to pursue a Master's degree in Engineering field at your renowned university, who completed his Bachelor's Degree in Electronics and communication Engineering at K S School of Engineering and Management.

He had been my student for the past few years where I am working as Associate Professor of K S School of Engineering and Management. During his tenure as a student he came across to me as a diligent, hardworking student. He is sincere in completing his assignments, project work, and reports on time.

I taught him the course Microwave and Antennas in 6th semester. From my observation I say that he is attentive, studious and possesses a positive attitude towards academics. Apart from academics He is also part of Hamari Pahchan which is a NGO where he served as a Member and few other positions and he is not only being a student but also serving society as a good citizen of the community.

I sincerely feel that he is a deserving student to get admission at your university. He possesses every quality that is required to achieve his future goals and has the ability to contribute to your institution in various ways. I would like to recommend him to be considered for admission in the Master's course as he is sincerely a deserving candidate.

To conclude, considering his keen interest in pursuing a Master's degree I would strongly recommend Mr. Y Dhanush at your university. I will give all my support with respect to his application. Please feel free to reach out to me in case of further queries.

Sincerely,

*Manu DK*

**LETTER OF RECOMMENDATION**

I take great pleasure in recommending Ms. Sowmya R Poojari in her pursuit of higher educational qualification for Master's degree from your esteemed university. I observed for past 4 years as an Associate professor in the Electronics and Communication department. From my supervision, I have noticed that Sowmya is a curious, ambitious and an organized student.

I have taught her courses like 'Control Systems', and 'Information Theory & Coding.' Her performance in these courses is commendable. In all the work she does is her most important quantity, which motivates her into giving her everything in any task she undertakes. A student with excellent ability for logical and intuitive thinking, she has proved herself to be a talent and brilliant student. Her ability to understand a problem and to conceptualize & analyse a situation needs a special mention.

Sowmya's communication skills are outstanding, she complements her academic knowledge with her remarkable inter-personal skills. Her attentiveness, practical approach, positive attitude and curiosity to learn made me respect her as a professional. Not only was she interested in and motivated to learn but also, she put significant effort into grasping and expanding her idea about each topic we discussed. I'm comfortable in putting Sowmya amongst the best student I've had the pleasure to teach.

Ms. Sowmya R Poojari continues to impress me with her knowledge, skill and dedication to her work. I am sure you will find to be a scholar whose talent will only shine further through your graduate program. I recommend her for the admission at your esteemed college with full financial assistance. Please feel free to contact me if you require further information.

Yours Sincerely,

## LETTER OF RECOMMENDATION

I take great pleasure in recommending Ms. Latha Borana in her pursuit of higher educational qualification for Master's degree from your esteemed university. I observed for past 4 years as an Associate professor in the Electronics and Communication department. From my supervision, I have noticed that latha was a curious, ambitious and an organized student.

I have taught her courses like 'Control Systems', and 'Information Theory & Coding.' Her performance in these courses is commendable. In all the work she does is her most important quantity, which motivates her into giving her everything in any task she undertakes. A student with excellent ability for logical and intuitive thinking, she has proved herself to be a talent and brilliant student. Her ability to understand a problem and to conceptualize & analyse a situation needs a special mention.

Latha B communication skills are outstanding; she complements his academic knowledge with her remarkable inter-personal skills. Her attentiveness, practical approach, positive attitude and curiosity to learn made me respect her as a professional. Not only was she interested in and motivated to learn but also, she put significant effort into grasping and expanding her idea about each topic we discussed. I'm comfortable in putting Latha B amongst the best student I've had the pleasure to teach.

Ms. Latha Borana continues to impress me with her knowledge skill and dedication to her work. I am sure you will find to be a scholar whose talent will only shine further through your graduate program. I recommend her for the admission at your esteemed college with full assistance. Please feel free to contact me if you require further information.

**LETTER OF RECOMMENDATION**

As an Assistant Professor in the department of Electronics and Communication Department at K S School of Engineering and Management (KSSEM), I am pleased to recommend **Ms. Gorrepati Keerthi** for the Masters Program at your esteemed university.

I have known Ms. Keerthi for almost 4 years, as a student in my course on Engineering Statistics and Linear Algebra. I have also been her final year project guide. She has always come across as a well-behaved, and courteous undergraduate student. I found her to be dedicated, hardworking, and versatile in her learning techniques.

As an inquisitive student, she had engaged herself in classroom discussions and put in extra efforts to understand the practical implementation of the theory in real-time. On observing her class participation and overall progress along with the subject knowledge, her overall performance was well above average in academics.

Ms. Keerthi has also involved herself in the various extra-curricular activities organized in the department. She had been a part of the various committees organizing different activities in-house and across the departments like debate, art competition etc. She had also taken the lead role and successfully completed the tasks assigned in the department.

Keerthi is not only a good student but also a good human being with morals and values, she always treats others with respect and stands with her peer whenever they are in need and helps them. By considering her diligent nature and capacities in various aspects, I believe that she will excel in academics.

I therefore recommend Gorrepati Keerthi for the admission to your program. I'm confident that she will prove to be an asset to your department, and will excel in her studies. Please feel free to contact me if you require any further information.

Yours sincerely,

Mr. Ravikiran B A

## RECOMMENDATION LETTER

It is my pleasure to write a recommendation letter for Ms. Sahana Santhosh, who is keen to pursue a master's degree at your esteemed university. I have known Ms. Santhosh as a student in the Electronics and Communication program at K S School of Engineering and Management, where I have been an Assistant Professor since 2011. She had been consistent good scorer and among the best students of her batch. As an instructor who has taught Ms. Santhosh in multiple courses, I believe I possess a good perspective to judge her abilities and skills.

In my estimation, Ms. Santhosh is very industrious, ambitious and career oriented. She is a hard worker who strives to achieve her goals and is committed to her work. Her diligent and sincere efforts to get things done complement her practical and logical approach towards problem solving, which, I feel, is a strong distinguishing trait.

I have had many opportunities to observe Ms. Santhosh closely during my courses including Signals and Systems and Digital Image Processing. Her academic performance was excellent, and she has a comprehensive understanding of both theory and practical aspects of the relevant courses. I recall her scoring top grades in my courses, and she has consistently been in the top five percent of her class, in academics. Aside from academics, Ms. Santhosh has also been an active participant and organizer in various technical and cultural extra-curricular activities. She has been a strong team player, playing pivotal roles in organizing multiple technical club activities and mobilizing her team towards successful victory in some events. She was also one of the organizers of the college cultural fest in 2021.

On a personal level, I feel that Ms. Santhosh understands people and has a knack for handling them effectively, with conflict resolution and team organization being her strong suits. She is strongly self-motivated, industrious, and a very good communicator, both in verbal and written forms. I have observed that she is a good team player, excelling in both leadership as well as teammate roles.

I enthusiastically recommend Ms. Sahana Santhosh to the Masters course at your prestigious University, as I believe that she has the talent and the passion to pursue her dreams and attain her goals. I believe that she will be a valuable asset to your academic community. In case you have any further questions, please do not hesitate to contact me.

## LETTER OF RECOMMENDATION

It is with great pleasure that I write this letter of recommendation for Ms. Shravani Immidi, to support her with regard to her application for her Post Graduate Degree in your esteemed Institution.

I've been an instructor to Ms. Immidi for the course on Digital Signal Processing and I found her to be a hard-working, conscientious, and keen student. She proactively participated in class discussions, displayed a strong knowledge of fundamentals and some advanced programming, computing, and networking concepts in her theoretical and practical work, and efficiently completed the work assigned to her.

Ms. Immidi is a talented young individual and has shown very strong technical, communication and presentation skills. Academically, she has been a good student with good grades and attendance, who followed through and met deadlines. Throughout the course she invested herself in extending her knowledge by attending various workshops and internships. Ms. Immidi showed herself to be a truly dedicated student by participating in optional technical projects. She is a self-motivated student, who sought and attended technical workshops in her areas of interest. She also regularly taken part in college cultural and technical activities.

While conducting seminars and presentations, I found Ms. Immidi to be well-prepared and confident in both oral and written communications. Her inquisitive mind and the ability to master new concepts and learn new things made her a very good student. I have observed that she is a good team player, excelling in both leadership as well as teammate roles.

Ms. Shravani Immidi is interested in strengthening her academic proficiency by pursuing her masters in your prestigious academy. I feel that her diligence and pragmatic analysis represent her competency towards the course. It is my belief that these qualities would make her a good match for your program. I strongly recommend her to be considered for the Master's program at your esteemed university. In case you have any further questions, please do not hesitate to contact me.

Yours Sincerely,

Mr. Ravikiran Ananthasubbaraya

## Letter of Recommendation

With great pleasure, I offer my endorsement of Ms. Pavitra Aritas for the Master's Degree Program at your esteemed university. I have known Ms. Aritas when she was a student in my Digital Image Processing and Digital Signal Processing courses during her undergraduate program, and I have had the opportunity to observe her skills, behavior and attitudes firsthand, and I believe I am in a good position to evaluate her as a student.

During my coursework, she put in significant effort in her academic work, and went out of the way to work on extra assignments and implementation mini projects, applying the theoretical concepts taught in the class, in practical applications. This included implementation of algorithms in MATLAB, which showed her motivation to learn on her own, beyond the assigned curriculum. Her final year project about "*Classification of Fruits and Vegetables using Deep Learning*" was particularly noteworthy, as she displayed originality and intellectual curiosity, and showed her knowledge in the fields of Digital Image Processing and Machine Learning.

Ms. Aritas has actively sought out opportunities to engage with technology and expand her knowledge through various intra-college events and workshops. For instance, her participation in The Smart India Hackathon - a highly prestigious and grueling 24-hour event, considered to be India's largest hackathon. During this event, I observed her accomplishments in this realm as her team overcame obstacles in a competitive environment and managed to make it through the Quarter Finals. She is also a team player and has a strong sense of collaboration, which, I believe, will serve her well in a graduate program. In addition to her academic abilities, she has actively participated in a variety of cultural programs such as the Annual Cultural Competition where she bagged first place consecutively for two years.

As a means of augmenting her practical knowledge and skills, Ms. Aritas undertook an internship in her 3rd year at Robert Bosch India, as a VLSI Engineering Intern, working in the area of intrinsic testing and designing of PCBs for clients such as Hyundai Motor Company and TATA Motors. One notable achievement of hers during her time at Bosch was her selection to join iTrams, a newly formed team of 7 individuals focused on the Vehicle-to-Infrastructure (V2I) ecosystem. In this role, Ms. Aritas was able to make a significant impact by contributing to the increased efficiency of the Connectivity Control Unit. This is a prime example of her ability to thrive in dynamic and challenging environments, as well as her dedication to driving positive results through her hard work and expertise. These diverse experiences have undoubtedly contributed to her well-rounded development as an individual.

I have no doubt that Ms. Aritas will thrive in her coursework and make valuable contributions to the field. I wholeheartedly recommend her for admission to your program and I'm confident she will be an asset to your community.

## LETTER OF RECOMMENDATION

As an assistant professor in KSSEM, Bengaluru, I am delighted to write this letter of recommendation for Mr. Rangasai, a former undergraduate student at this college. I have known Mr. Rangasai for four years in academia, and hence I can confidently discuss his skills and qualities as I have been his professor for the subject of "Image Processing" during his 7<sup>th</sup> semester and "Multimedia Communication" during his 8<sup>th</sup> Semester. I have also been a supervisor in some of his subjects involving practical laboratory sessions. He is a highly motivated and sincere student, who has demonstrated readiness in actively understanding and dissecting the concepts that were taught in class and willingness to apply them in real world use cases to solve some of the assigned problems.

As part of his final year project, Mr. Rangasai worked on a project based on motion tracking involving OpenCV in Python and Raspberry Pi 3 in his 7<sup>th</sup> Semester. He eventually enhanced and converted this project to a prototype of an Automatic Gun Turret system using an Adafruit Motor Hat in the following Semester. During his undergraduate program, he also prepared and delivered a Technical Seminar on "Optimized Human Detection on the Embedded Computer Vision System", in which he demonstrated the various concepts in Image Pre-Processing, Principal Component Analysis and Image Classification using Back-Propagation Neural Networks during his 8<sup>th</sup> Semester.

Furthermore, Rangasai was also an active participant in extracurricular activities and has won prizes in quiz competitions in the annual college fest, and has written and performed in stage plays. He has also participated in different disciplines during the annual athletic competitions and has exhibited athleticism in a lot of them.

In summary, Rangasai has demonstrated a lot of interest and a keen sense of innovation in the field of Computer Vision. Being his professor, I take delight in strongly recommending Mr. Rangasai for your esteemed institution and wish him the best for the same.

Yours sincerely,

Prof. Ravikiran Anathasubbaraya

**LETTER OF RECOMMENDATION**

I am extremely delighted to recommend my student Miss. Mrunalini Girish Antin who aspires to do her Master's Program at your prestigious University. I am glad that she has decided to exploit her potential to the fullest by pursuing her Master's from an institute of international repute. I have known her throughout the course of engineering, and from the interactions, we have had, I can say that she is a diligent, hardworking, and focused student.

As an Associate Professor at the Department of Electronics and Communication Engineering, KSSEM, Visvesvaraya Technological University. She was under my tutelage for the subjects of Digital Electronic Circuits, Digital Electronics Lab, Linear Integrated Circuits, and guided in her Project for "Design of IoT Based Landmine Detection Robot". Mrunalini has shown a standout performance in various aspects of her project such as designing, construction of their model using unique materials and advanced methodologies which should hold her in good stead.

She was a top presenter among her batchmates and has impressed a team of well-versed professors with her crisp communication and presenting skills already. Mrunalini was always involved in discussions and deliver all the given assignments in a timely manner. She always helped her friends participate in group discussions, in labs and in placement interviews. Mrunalini was a hardworking and an ambitious girl who apart from academics has also worked as an intern at top companies of India during her study years which bought her immense exposure of work & also bought a good name to our institution. Her competence, interests, and commitments to work restlessly indicates that she can perform outstanding even in highly competitive environment. Mrunalini's exploit outside the academic's realm have also been noteworthy. She has participated in technical projects and seminars held by college.

Apart from this, she has been one of those students who is always regular in submitting her assignments. Her confidence, talent, maturity, interest, and passion for keeping abreast are one of a kind, making her a promising student. Her powers of observation, inherent curiosity, and willingness to learn have made to reflect her intelligence and thinking abilities which have made Mrunalini very popular with her class fellows and her peers. Overall, Mrunalini is a highly motivated student having exceptional creative abilities, research-minded, a student of high ethical and moral standards, and equally good in cultural and extra-curricular activities. I feel proud to have been associated with Mrunalini. I would like to strongly recommend her to your esteemed university for pursuing her higher studies and given a chance, I have no doubt that she will make a great student at your university. If you have any questions regarding Mrunalini, please contact me.

Regards,
