Closure Report for the Training Program

Name of the College : K S School of Engineering and Management – B.E

Program By : Destination Technologies – Training and Recruitment Partner

Venue : K S School of Engineering and Management, Bangalore

Dates/Duration : From 11th December 2023 till 20th December 2023

Objective of the Training Program

Technical training is designed to provide individuals with the specific skills and knowledge required to excel in a particular technical field. The objectives of technical training may vary depending on the subject matter, but here are some common goals:

1. **Skill Development:** Equip participants with hands-on, practical skills necessary to perform tasks and solve problems in a specific technical area.
2. **Product or Technology Familiarity:** Ensure participants have a deep understanding of the products, technologies, or tools relevant to their field of expertise.
3. **Tool Proficiency:** Develop proficiency in using technical tools and software essential for the job, including industry-standard software, hardware, or specialized equipment.
4. **Industry Standards and Best Practices:** Familiarize participants with industry standards, regulations, and best practices relevant to their technical domain.
5. **Troubleshooting and Problem-Solving:** Train individuals to identify and troubleshoot technical issues, fostering problem-solving skills within the context of their specific field.

Schedule and Plan of Execution with Trainer details

Technology	Theory	Theory Time	Lab	Lab time
Java batch - 1	Kavya	8:50 am to 1:00 pm	Kavya / Chandana	1:50 pm to 3:50 pm
Java batch - 2	Bheemesh	1:50 pm to 3:50 pm	Bheemesh	8:50 am to 1:00 pm
Java batch - 3	Sagar	8:50 am to 1:00 pm	Sagar / Mamith	1:50 pm to 3:50 pm

List of Modules

- Fundamentals of Programming
- Arrays
- Strings
- Interview Specific Programming Questions
- Object Orientation
- Pillars of Object Orientation
- Interfaces
- Exception Handling
- Multi-Threading
- Collections
- MySQL
- Java Database Connectivity

Learning Outcomes / Program Outcomes

Java Fundamentals:

- Demonstrate a solid understanding of Java syntax and basic programming constructs.
- Use variables, data types, and operators to manipulate data in Java programs.

Object-Oriented Programming (OOP):

- Apply object-oriented principles such as encapsulation, inheritance, and polymorphism in Java programming.
- Design and implement classes and objects to model real-world entities.

Java Language Features:

- Utilize Java features like interfaces, abstract classes, and enums for efficient code structuring.
- Understand the importance of packages and namespaces for organizing code.

Exception Handling:

- Implement exception handling mechanisms to manage runtime errors effectively.
- Use try-catch blocks and understand the hierarchy of exception classes in Java.

Collections Framework:

- Demonstrate proficiency in using Java Collections (List, Set, Map) for data manipulation.
- Understand the differences between various collection types and choose appropriate ones for specific scenarios.

Multithreading:

- Develop multithreaded applications in Java to achieve concurrent execution.
- Understand synchronization and coordination mechanisms to avoid thread related issues.

Student Feedback Overview

Destination Took regular feedback from students for Fourteen days and the analysis of the feedback forms imply that 96% of the students who participated in the program found the training to be useful and rated EXCELLENT , 3 % of the students found the training to be GOOD

and 1% of the students found the training to be AVERAGE. TRANSIT-TRP believe there is always a room for improvement and is striving to reach out as many students as possible.
